It can happen... at a certain moment in time, that a special foal is born... a foal that will change the life of its breeder, as well as the life of many breeders and mare owners all over the world.

This is what happened to the Buzzi Family in 2003 when a gorgeous chestnut colt was born to their home bred mare

Anthea Moniscione. It was a difficult birth. The foal was very big and the mare had suffered during a long labor. Once the foal was delivered, Giancarlo and Rosanna realized right away that there was something wrong with him. He could hardly breathe, exhausted from the long labor that brought him to life. Their experience as farmers and

long-time horse breeders made them react fast so that they could save his life. A difficult start, for what seemed to be an unbelievable foal.

It did not take them long to realize this colt was something special... something they had never seen before. Long-time breeders of Arabians, the Buzzis have always been in the

winner's circle of the Italian show scene. Their breeding program was mainly based on Russian/Polish bloodlines and their foundation mare, Armonia, was several times bred to the Padron son Padron's Ghibli.

In 2002 a stunning grey stallion had started his first breeding season... and without knowing it, that year would mark the start of his legendary status as well. This young

stallion was the incomparable WH Justice. Giancarlo and Rosanna Buzzi saw him and decided to give him some of the best mares they owned, which included Armonia and her daughter Anthea Moniscione. Never was a decision was more wise.

2003 saw the birth of a filly and a colt out of these two

mares respectively. Armonia gave them yet another daughter, Ania Moniscione... a gorgeous grey filly with the biggest liquid black eyes and chiselled face, now owned by the Ajman Stud. While Anthea gave birth to what is today one of the most influential sires of our time... Ajman Moniscione. These two foals were something different from all the Buzzi had

bred until that time. A new look was added to the already beautiful mares they owned.

Grace, extreme type, and the great charisma typical of the Russian bred horses made these two foals stand out from all the others... and not only at Buzzi's farm.

It was not long before people started talking about them. They really created an international sensation with breeders and trainers from all over Europe wanting to see

the first produce of WH Justice. It was mainly these two foals together with Panarea by Palawan, also born that year, which launched WH Justice to become the incredible sire he is. Giancarlo and Rosanna knew that their little colt had immense potential, not only as a show horse but one day as a sire as well. Time proved them right.

After a couple of shows in Italy where Luca Oberti showed him to his wins, Ajman Moniscione made his way to

D Reem (Ajman Moniscione x Kastilia M.A.F.), 2011 grey, mare

Northern Europe Frank Spoenle having set his eyes on him. The relationship between Frank, Ajman and the Buzzi Family went a long way and met with incredible success. Ajman Moniscione is one of the most exotic stallions the breed has ever seen... His incredible face and huge black eyes are really breath-taking and he has proved he can pass on these special features to his sons and daughters. He is once in a lifetime horse which the Buzzis recognised from

the beginning. Countless offers were received from all over the world to purchase Ajman. From his first outing he captured the hearts of judges and crowds alike. Giancarlo and Rosanna made a decision years ago never to sell him, even though tempting offers kept coming... and still do... The devotion the Buzzi Family has for this stallion, the respect and appreciation are endless. He changed their lives, and they know it.

RP Grace Kelly (Ajman Moniscione x Pamira Bint Psytadel), 2009 chestnut, mare

Alma Al Tiglio (Ajman Moniscione x Amanda Al Tiglio), 2008 chestnut, mare

But let's go back a few years to when Ajman was only a two year old colt. In the capable hands of Frank Spoenle he took Europe by storm in 2005. Gathering championship titles from Menton, to Aachen, to the Europeans, culminating with the best head trophy and top ten awards in Paris. Ajman Moniscione proved that year what his breeders believed from the first moment they saw him...

He was truly one of a kind.
But his countless show wins are nothing compared to what he has achieved as a sire. Breeders from all over the world fell in love with him and entrusted their mares to this young stallion.

The results fulfilled all expectations. The progeny of Ajman have been recognised worldwide and are still winning in the most important shows.

Nowadays Ajman is still one of the most popular and widely used stallions with international breeders.

But the one daughter of Ajman that left an indelible mark on the show rings worldwide, and for sure in the heart of the Buzzzi Family, is Alma Al Tiglio. A beautiful chestnut filly owned by the Buzzzis, who travelled the world from Europe to the Middle East, to America, winning titles on three different continents. With Frank Spönle, Alma was nominated Menton Champion Filly, All Nations Cup, European and World Reserve Champion Filly, Dubai Champion Filly as well as Las Vegas Champion Filly, Alma Al Tiglio has been a dream come true for the Buzzzis. Sired by their home bred stallion Ajman Moniscione, Alma has

taken the Buzzzis with her out of Italy and around the world. Just last year, 2018, Alma confirmed her success as a show mare, with her current handler Andrea Boscarino, winning the Gold Medal at The Italian National Championship and the Bronze Medal at The European Championship. It would require a whole book to write about all the successful offspring Ajman Moniscione has sired in recent years. His offspring that have won important titles in so many different countries, from Brazil, to North America, to Europe and the Middle East. We thank the Buzzzi Family not only for breeding Ajman

Moniscione, but also for the love, devotion and respect they always show for this stallion. He is continuing the legacy his famous ancestors started, whilst his sons and daughters are carrying his name around the world, and will continue to do so in future years. Meanwhile Ajman enjoys his life at Gestuet Osterhof in Germany where Mr. Heinz Stoeckle takes the best care of him and makes sure his legacy will continue for many years to come. In this article you can admire some of the outstanding gems by Ajman Moniscione. Enjoy. □
