The first time I saw Barolo, at the farm of my friend and breeder Ailton Braga, owner of Haras Carol, he had only a few days of life and I was really impressed by his beauty and charisma. Some years later he matured into a very special horse, with a lot of refinement, type and movement. I've never seen personally such a beautiful individual! As Mr. Braga had a very few number of mares at that moment, he decided to sell Barolo. Then, I decided with my dad that Barolo would be a great addition to our breeding program and come to Haras 7 Flores. The first mare he bred at my farm was Lolita Rach, a beautiful mare leased from a friend. From that matching was born Leelah SPO and Barolo started to show a promising career as a sire and for sure will be an excellent breeding stallion. Leelah has extreme type, good body, and a very promising show career, wining at her first Brazilian National the title of Bronze Champion Junior Filly.
