### THE SECRET - "GOLDEN CROSS" AND POWER OF "E"-LINE

*Most of horse breeders knows that mating World Champion with World Champion rarely gives a World Champion again. But still, many keep hoping and some are gifted with the success... Although the breeding has some unquestionable rules that must be fulfilled on the way to the goal. One of them is the quality of the bloodlines.*

*Emandoria is the daughter of GAZAL AL SHAQAB - World Champion and US National Champion Stallion.*

*His type with characteristic, long, highly placed swan neck, balance of body and topline combined with exotic charisma*

*is the image of Gazal's Egyptian-Polish cross pedigree. With such Straight Egyptian stars on sire's side as Egyptian Event Supreme Champion - Anaza El Farid and legendary sires: Ruminaja Ali, Shaikh Al Badi (to Morafic) and Ansata Ibn Halima (to Nazeer) and Polish lines descendants as US National Champion Kajora and World Champion Kaborr, Gazal Al Shaqab was a perfect "golden cross" addition into the top producing "E" family of mares tracing to foundation mare Milordka in Poland, representing the overall femininity and modern presence of Arabian horse.*

*On dam side, Emandoria represents the eighth generation of "E"-line produced champions beginning with Oaks &*

*Criterion winner Estokada, Polish National Reserve Champion Eskapada, US National Top Ten Espada, Polish National Champion Emisja and Polish National Reserve Champion Emigracja – a living legend mare herself who produced several daughters retained in breeding at her maternal Michałów State Stud. She crossed the best with two epochal stallions for modern Polish breeding – Monogramm and Eukaliptus and tracking back on Emandoria pedigree we will focus on Eukaliptus crosses. Three of Emigracja daughters - full sisters by Eukaliptus became entitled show mares as well as top producers. These were: Polish National and European Champion Emigrantka – dam of Polish National, US National, All Nations Cup & European Champion El Dorada, US National, Canadian National & Scottsdale Champion El Mundo, Polish National Champion, European Champion and All Nations Cup Reserve Champion Emigrant; another one was Erlanda - Polish National Reserve Champion and Babolna International*

*Best in Show Champion, dam of Scottsdale Champion & US Reserve National Champion Elandra; the third daughter of Eukaliptus and Emigracja was Emanacja - Polish National Best in Show, European Champion, All Nations Cup Champion & World Reserve Champion – dam of Polish National, British National and European Champion Emilda, US National, Canadian National & Scottsdale Champion Emanor, Polish National Reserve Champion Espadrilla and World Champion EMANDA – the dam of Emandoria. She started her enormous own show career in 2005 (as a yearling) in Poland and it quickly led her to her*

*first World Champion title in the same year already. The long list of her (most important) show records you can find below. As a broodmare Emandoria has followed the footsteps of her E-line mare ancestors producing several outstanding foals for her home stud in Poland as well as while on lease to USA and Ajman Stud in the UAE. The most entitled and worldwide known so far is Emerald J (by QR Marc) - the successful show stallion and sire of champions.*

*In 2016 Emandoria was honoured with the WAHO Trophy for her stellar achievements in the showing and as one of the most important broodmares in the world today. □*
