# DOMINIC<sup>M</sup>

DA VINCI FM x ROSA LA VALENTINA

## A NEW LEADING SIRE

**D**ominic M. is an only 6 years old stallion, owned by Dominic M Partnership, sired by the Versace son Da Vinci FM and out of Rosa La Valentina, a daughter of DA Valentino out of a Ryad El Jamaal daughter. His pedigree combines some of the most valuable bloodlines giving breeders all over the world a huge range of new opportunities.

“I love his pedigree, I always liked the Versace blood that he carries in both sire and dam line and I

fspring in Uruguay at Las Rosas Farm”.

The European Breeders Trust wants to help its European Breeders improve their very own breeding programs by offering them new opportunities. “One of those opportunities is exactly Dominic M with its exquisite pedigree and already proven breeding abilities,” argues Sven Schick - Management Board of European Breeders Trust.

His unique pedigree can be an enrichment for a lot of breeding programs: twice Versace combined with

like the combination with the Ali Jamaal blood. Free from WH Justice or Marwan Al Shaqab and gives breeders in Europe a whole new possibility of breeding says Gregor Aymar.

Karl-Heinz Stockle, Chairman Supervisory Board, was already impressed by his offspring. “It was November 2016, when I saw some of his promising of-

a genetic pool blessed with some of the best representatives of the breed of all times such as El Shalkan, Padrons Psyche, and Ali Jamaal. Karl-Heinz Stockle: “He is a Stallion without any connection to the bloodlines that the mares in Europe mostly have. That’s the reason why he is a perfect opportunity for the European Breeder.” But it is not only the

pedigree that makes Dominic M so special, describes Olivia Strauch: "It is not the fact of having all this famous bloodlines in the pedigree that makes a horse special, a horse needs to resemble all this great horses in the look. Dominic M has the look and the proven capacity of transmitting his qualities. I believe he can be a great addition to many European breeding programs due to his different pedigree and the fact of putting structure back into the horses we breed".

"Combined with pretty pedigrees which we already have in Europe he can be a great match" adds Gregor Aymar. From his side, Gianpaolo Gubbiotti admits: "Dominic M can really be the next step of the young generation in Europe. He will fit exactly with our kind of mares."

"That specific Dominic M-look is created as he passes nicely shaped upright necks, short bodies and big eye bones", concludes Gregor Aymar enthusiastically. The mother of Versace, Precious As Gold was herself a very special and pretty mare and a great backbone to have in a breeder's program. At the end of their lease, Al Hawajer Stud will have bred over 20 mares to Dominic M.

Rebecca Wended from Al Hawajer Stud is more than convinced of this stallion, "We bred him to an El Shaklan daughter, a Ruminaja'Ali daughter (take note that both of these are direct daughters of the above-mentioned stallions), to an Ajman Moniscione daughter and to three Marajj daughters. We found he was consistent in improving the bodies and necks from the mares. Dominic has worked best on Mares with a great showattitude, his greatest strength is his ability to fix many problems. Karl-Heinz Stockle adds: "Maybe his face could be a bit more exotic, so I would advise a grey mare with a pretty face. I believe he is the perfect Stallion for all these mares which have pretty faces but missing this kind of silhouette or a neck with a good shape."

After his first offspring in the United Arab Emirates started winning

Championships in 2018, including the 2018 Dubai International Show Gold Champion Foal Raboubah Al Hawajer, the 2019 Show Season started with amazing results. Once again, Raboubah made her way into the Championships by winning her class and later awarded Bronze Champion Yearling Filly at the Ajman Arabian Horse Show. In addition, Fam Donatella was crowned Gold Champion at Abu Dhabi International Show 2019- Yearling Fillies Championship; Bronze Champion at Dubai International Championships 2019, and more recently, Gold Champion Yearling Filly at Milan 2019 - Yearling Fillies Championship. Not to forget the incredible success at the Brazilian National Championships 2019 of Lady Dominica who grabbed the Title of Gold Champion Junior Filly; and Preludio OSB who won the Title of Gold Champion Young Stallion. In the meantime, the first babies sired by Dominic M that are born in Europe look really fantastic. So, we now have the physical evidence that what we were waiting for it did come by in the end.

Special thanks go to Las Rosas and Trust for their great management of Dominic M.
