

AN OPPORTUNITY AS BIG  
AS YOUR IMAGINATION...

DOMINIC<sup>M</sup>

DA VINCI FM | ROSA LA VALENTINA | DA VALENTINO

Dominic M, currently on lease to the European Breeders Trust AG, is an only 6 years old stallion, owned by Estancia Las Rosas of Uruguay, sired by the Versace son Da Vinci FM and out of Rosa La Valentina, a daughter of DA Valentino out of a Ryad El Jamaal daughter. His pedigree combines some of the most valuable bloodlines giving breeders all over the world a huge range of new opportunities! "I love his pedigree, I always liked the Versace blood that he carries in both sire and dam line and I like the combination with the Ali Jamaal blood. Free from WH Justice or Marwan Al Shaqab and gives breeders in Europe a whole new possibility of breeding." - Gregor Aymar says. His first foals in Europe are expected to be born in the next weeks.

Karl-Heinz Stöckle, Chairman Supervisory Board, was already impressed by his offspring then. "It was November 2016, when I saw some of his offspring in Uruguay at Las Rosas Farm." Breeding is also the main purpose of leasing Dominic M. "European Breeders Trust, even though were still on our early stages, tries to help its European Breeders to improve their very own breeding programs by offering them new opportunities. One of those opportunities is the leasing of Dominic M with its exquisite pedigree and already proven breeding-abilities" describes Sven Schick, Management Board of European Breeders Trust, the background of the lease. "

His unique pedigree can be an enrichment for a lot of breeding programs: Twice Versace combined with a genetic pool blessed with some of the best representatives of the breed of all times such as El Shaklan, Padrons Psyche, and Ali Jamaal. Karl-Heinz Stöckle: "He is a Stallion without any connection to the bloodlines that the mares in Europe mostly have. That's the reason why he is a perfect opportunity for the European Breeders." But it is not only the pedigree that makes Dominic M so special, describes Olivia Strauch "It is not the fact of having all this famous bloodlines in the pedigree that makes a horse special, a horse needs to resemble all this great horses in the look. Dominic M has the look and the proven capacity of transmitting his qualities." "I believe he can be a great addition to many European breeding programs due to his different pedigree and the fact of putting structure back into the horses we breed. Combined with pretty pedigrees which we already have in Europe he can be a great match" adds Gregor Aymar. "After seeing him and later in spring 2017 his first offspring at Al Hawajer I liked the look he passes on to his offspring." Gianpaolo Gubiotti admits: "Dominic M can really be the next step of the young generation in Europe. He will fit exactly with our kind of mares."

That specific Dominic M-look is created as he passes nicely shaped upright necks, short bodies and big eye bones. "After seeing him and later in spring 2017 his first offspring at Al Hawajer I liked the look he passes on to his offspring, a solid conformation, nicely shaped upright necks and the big eye bones typical for Versace look," says Gregor Aymar enthusiastically. "The mother of Versace, Precious As Gold was herself a very special and pretty mare and a great backbone to have in a breeders pedigree." In the end of their lease Al Hawajer Stud will have bred over 20 mares to Dominic M. Rebecca Wenden from Al Hawajer Stud is more than convinced of this stallion: "We bred him to an El Shaklan daughter, a Ruminaja Ali daughter (take note that both of these are direct daughters of the above-mentioned stallions) and Ajman Moniscione daughter and three Marajj daughters. We found he was consistent in improving the bodies and necks from the mares. Dominic has worked best on mares with a great showattitude, his greatest strength is his ability to fix many problems." Karl-Heinz Stöckle adds: "Maybe his face could be a bit more exotic, so I would advise a grey mare with a pretty face. I believe he is the perfect Stallion for all these mares which have pretty faces but missing this kind of silhouette 'short body's and a neck with a good shape'."

After his first offspring in the United Arab Emirates started winning Championships in 2018 including the 2018 Dubai International Show Gold Champion Foal RABOUBAH AL HAWAJER, the 2019 Show Season started with amazing results, again RABOUBAH made her way into the championships by winning her class and later awarded Bronze Champion Yearling Filly at the Ajman Arabian Horse Show, and FAM DONATELLA won the Gold Champion Title Yearling Filly at the prestigious Abu Dhabi International Show in Februar this year. In the meantime the first foals by Domonic M are expected to be born on European soil in the coming weeks.
