Once in a great while, a truly exceptional individual enters your life. When our foundation mare ASE Bisiriya Hlayyil was carrying the foal of Da Vinci FM by Versace, I had a premonition that this foal would be extraordinary. I had already chosen his name long before his birth, and when he came into the world, the name fit him perfectly. We often joke that Juilliard was born with his tail held high, but in truth, it wasn't far from reality, as from day one, he danced through the field with the regal air he would come to embody.

As a young colt, we took him to the International B-show where he earned the silver medal. However, he then experienced such significant growth that we decided it was best to wait until he matured before returning him to the show ring. Now, at the age of eight, his time has finally arrived.

Teaming up with Tom Oben of Obi Training Center, ASE Juilliard will be showcased at various shows across Europe this year. We are thrilled to introduce our boy to the world!

Yet, Juilliard has proven that fame doesn't solely come from show appearances. His name resonates across the globe in the Arabian horse community. As a true sire, his renown doesn't stem from his success in the show ring, but from his achievements as a sire.

Because being privately owned, Juilliard serviced only a maximum of five mares each year. Before the age of four, he already sired a Bronze medal champion colt and a National Reserve champion filly.

Subsequently, his offspring continued to excel in shows,

with his exceptional daughters ASE Juillye el Teyna (out of ZT Ludjtayna) and ASE Graciela el Juilliard (out of Geraldynne el Jamaal) enjoying a remarkable show season last year.

Juilliard's foals are adored worldwide. His daughters ASE Juilliette (out of ASE Sayuri) and ZO Zafirah (out of Madura Marloes) are representing him in Israel, while his champion daughter ASE Graciela el Juilliard

(out of Geraldynne el Jamaal) is making a name for him in China. This year will be the first year Juilliard will stand at public stud with a renowned Training Center. We believe the best is only yet to come!

Juilliard imparts his extreme face to all of his foals, even with ordinary dams. He bestows them with large expressive eyes, compact bodies, and exceptional movement. Yet, perhaps most importantly, Juilliard

instills an amazing, affectionate, and caring character in all of his offspring. They are relaxed, grounded, yet effortlessly showy when required. They are friendly and remarkably easy to work with.

A well-balanced horse with sturdy legs, correct conformation, and ground-covering movement, Juilliard also possesses an exceptional shoulder rarely seen in modern breeding. With his strikingly extreme facial

features, including huge eyes and small, refined ears, he stands at a height of 1.58m, making him fairly tall.

Juilliard's dam, ASE Bisiriya Hlayyil, was an ELITE performance mare, excelling in endurance at the International FEI level and qualifying for the CEI 3* of 160km. Renowned for her incredible heart and rapid recovery times, she passed these traits on to all of her offspring. Bisiriya traces back to ancient Jordanian

desert lines through former World champion Hlayyil Ramadan she carries the precious blood of Hadban Enzahi on her damline.

Juilliard's sire, Da Vinci FM, was a son of the illustrious Versace, hailing from old American Polish lines, with ancestry tracing back to the exquisite mare Sanacht and the renowned Murana I strain.

At Obi Training Center, Juilliard will also be collected

for semen shipment worldwide. With exceptional semen quality, several prominent Middle Eastern farms have already expressed interest in breeding to him.

With no Marwan or Justice bloodlines, Juilliard serves as the perfect outcross for your mares, while still imparting the modern qualities desired in today's show ring. He seamlessly blends functionality and beauty, poised to become the next influential sire of his generation. □
