

# Regio Le *When*

*Text by Urszula Leczycka*

Regio was special since the moment he was born – charismatic, muscular, tall and strong foal with dishy face and very short nose part. He had a really regal pose at stand up from his first days of life, that's where his name comes from as „regio” in Italian means royal or regal.

# Soleil

*The Royal is born*

The colt was a result of carefully planned combination of the champion producing RFI Farid and Laheeba Le Soleil – Le Soleil Stud homebred mare being a cross of WH Justice line on top with best Russian bloodlines through Prichal (son of Aswan and from Taktika female line) as well as through Mascot on bottom of pedigree. She also carries a valuable Straight Egyptian lines through her maternal grandsire – Laheeb Al Nasser (by Al Adeed Al Shaqab) and rare blood of beautiful Phaaros through her grandmother - Alfabia Gaucita. There is not a big surprise that such a blend of bloodlines brought the great colt to the ground.

His story shows that the show results has proven his quality, although Elvis Giughera – his breeder and owner had to wait some time for it. The colt has been sent to the training centre of Tito Jose Villa when he was less than 2 years old to try him at some shows at the Iberic Penninsula.

*Unfortunately, whenever we planned to send him to a show there was something against happening – says Elvis – so, at the end the first possibility to show Regio to the public was the biggest and most important show in Spain, but his trainer was confident that the stallion is in good disposition to handle this competition.*

Finally, at the age of 3 Regio Le Soleil had been shown at 2022 Spanish Nationals where he won Unanimous Champion Junior Stallion title fulfilling his owners dream.

*– We sold several breedings after this show, some even before but again, for some reason, only one from those breedings sold had been used at the same breeding season and the first filly was born this spring in Spain. She is a copy of her sire when it comes to huge, black eyes and traingular, short head. The rest of the breeders as well as me myself we are covering the mares to Regio this year. I breed almost all my mares to him – points Elvis.*

Elvis

*Currently he is standing at stud at Luxury Training Center in Madrid, being offered to the breeders worldwide. He is also available for possible leasing. - We had already an offer to sell him to Qatar but my goal is not only to sell but also retain breedings for my own use and this was a deal breaker in this case - Elvis says - In the meantime the mother of Regio Le Soleil has been sold to Mudhar Stud in Qatar in foal to Sultan GK where she produced a very nice colt and happens to be a valuable broodmare for this farm. We really hope he can be an interesting outcross for many breeding programs worldwide as well as give a lot of joy at the shows, as his career has just started - and with what a result!*
