It was several years ago when Polish private breeders, after the communism time collapsed, had the first post war opportunity to go to the world's longest in tradition and most successful auction for Arabian horses in Janów Podlaski and choose amongst the best bloodstock of Polish State Studs, a national heritage that survived not only world wars and tough political times but also dynamic changes on worlds market.

Since that time Polish people could not only breed the horses for whatever purpose they choose but also had enough incomes from their new growing businesses to invest in the luxurious breeds. One of them was Stanisław Redestowicz, establisher of Krzewień Stud located in central Poland not

far from capital city of Warsaw. Choosing the best from the best he acquired such treasures as Etnografia - Janów Podlaski bred mare who produced Janów's chief sires El-Vis and Etolog and valuable broodmare Etalanta, dam of Junior Champion and Best in Show at Białka Show - Etnologia; he also purchased the direct daughter of legendary World Champion Pilarka - Pilina, Pelargonia - daughter of Polish National Champion Filly Pektyna, out of US Champion Mare & \$1,5 million high-seller Penicylina, in turn the daughter of Polish National Reserve Champion Mare Pentoda, who established the largest subline of the family of Piewica in Janów. The farm of Krzewień Stud was settled in the comfortable area not far from Warsaw with its Służewiec racetrack so it was one of the first in Poland that established

also its race stable with own training truck at home- named SK Klwaty under the supervision of Stanisław son-Paweł.

Being modern in style Stanisław was also looking for something unique and very different for his mares then any other breeder in Poland before. His steps followed across the Ocean focusing on what US breeding was at that time offering the best. It was far before Eastern and Central Europe even thought about importing frozen semen from abroad not mentioning as far as America. After long trials and help of Polish Prestige – former Arabian Horse Days in Poland organizer the very first breedings of multichampions and sires of champions across the globe – Padrons Psyche and Magnum Psyche landed in Warsaw. Not only whole

Poland was awaiting the results of this brave move and when the first foals were born it was almost sure this will be something spectacular. And it was.

Unfortunately due to some economical rumors in the meantime, the breeding success faced the unexpected end of Krzewień farm good times and most of the broodmares and youngsters had to be sold out, mostly to the other Polish studs. Hopefully these first crosses of legendary Padrons and Magnum Psyche with Polish best mares went to reliable hands. Surely a lot of Arabian horse community members know such stars as Primadonna (Padrons Psyche x Pelargonia), now belonging to Grabów nad Pilicą Stud – 2007 International B Show Champion Mare & Best in Show

PRIMADONNA (PADRONS PSYCHE X PELARGONIA)
THE MOST INTERNATIONALLY ENTITLED HORSE BRED BY FORMER STANRED ARABIANS

– Drammen (Norway), International A Show Top Five Champion Mare – Vilhelmsborg (Denmark) and 2008 International C Show Reserve Champion Mare – Casino Cup, Baden/near Wien (Austria) or Kashira (Magnum Psyche x Kahila IV) who, until the year 2011 representing Belżyce Arabians, gained impressive number of titles with International Casino Cup Champion, International Champion Filly – Drammen, International Champion Mare – Sankt Petersburg, and many times Class Top Five in Prague Intercup, Polish Nationals, All Nations Cup and Scandinavian Open. Several weeks ago she went as one of the higher bids of 2011 Pride of Poland auction (57 000 Euro) to Australia. Further produce such as Pilin Psyche (Padrons Psyche x Pilina) – St. Petersburg Open

International Reserve Champion was sold as chief sire to Romania, Emegna (Magnum Psyche x Embola) was sold for 60 000 Euro to Saudi Arabia (from the further Polish owner – Grabów nad Pilicą) and the same year the Ekstern daughter Bellissima, still owned by SK Klwaty, went to the same Middle Eastern country for 80 000 Euro!

At Redestowicz family only few horses from the basic herd were safe kept. One of them was Etnodrons Psyche - one of the very few sons of legendary Pardons Psyche in Poland and whole Europe being so active in breeding. His dam is valuable Janów Podlaski bred Etnografia mentioned above. Sold in 2000 for 30,000 USD at Janów Podlaski auction Etnografia came to Stanislaw Redestowicz place, where she

KLEOPATRA (SENADOR X KAHILA IV)
STRAIGHT EGYPTIAN HALF SISTER TO ENTITLED KASHIRA SOLD AT 2011 PRIDE OF POLAND

was bred to *Padrons Psyche*. In his record *Etnodrons* has some very good show results with twice 1st place at Polish Nationals just behind Polish National Championship winners and Bronze Medal of 2011 *Polska-Arabia Arabian Horse Festival* in Warsaw. Widely used in Polish breeding *Etnodrons* has already produced some significant show contenders – as the filly *Znaczna* that gained very high scores at 2010 *Białka Junior Spring Show*, and through such mares as *Bellissima* mentioned above or *Kahila IV* (dam of multichampion *Kashira*) both sold to Saudi Arabia in foal to *Etnodrons* – he also has some descendants in the Middle East. Also thanks to this stallion and his very consistent produce *SK Kłwaty* branch survived with some very good broodmares band still growing again.

Starting from this year the idea of its owner – *Pawel Redestowicz* who is continuing the work of his father nowadays is to come back into the national and international arena. Following the tradition they planned to make it unusual way organizing something very new on Polish stage. Starting with the new face and new name – now as *StanRed Arabians* (taken by short cuts of its founder *Stanislaw Redestowicz*) spontaneously after the consultation with the manager and trainer – *Piotr Stańczuk* (formerly working at *Wrsan Stables UAE* and *Midwest Arabian* in USA) the idea of first Arabian horse auction run by Polish private farm was set. This was planned as not only sharing the collection of own horses but also to give opportunity to other Polish private breeders who didn't have

the chance to qualify their horses to very limited Pride of Poland sales list to present their offer to Polish and international customers. For managing, promoting and arranging the idea into real the company Arabhorsepromotion.com was invited – having the experience with promoting Arabian horses and in some very new and very first challenging activities in Arabian horse industry. The event runned few days after Pride of Poland gathered an interesting and very various offer of horses gathered from several private Polish farms – from broodmares of merit as half sister to World Reserve Champion Girlan-Bey through promising show prospects by chief sires as good as Ekstern, Ajman Moniscione, Magnum Psyche and Emigrant to close relatives of past Pride of

Poland auctions highest sellers, entitled stallions and some state studs bred horses acquired during the famous sale at Janów Podlaski in the past. Comfortable location half way from Michalów State Stud to Warsaw and just one hour highway drive to Warsaw airport StanRed Arabians was a perfect place and perfect time to start this new activity in Poland. Impressively renowned farm that includes huge guest house with mini zoo, spa and fitness center, surrounded by the green areas and rocky garden with automatic waterfalls running down by one click of the button hosted the first group of guests who arrived from Brazil, Iran, Romania and Poland. And almost all these countries acquired their new horses at StanRed Arabians auction! Additionally the special gift founded by Tutto Arabi magazine was presented

SOLD IN POLAND

HANAH BY POGANIN
SOLD TO IRAN

to the highest sold horse buyer. As the host – Stanisław Redestowicz says – the best success was not only to sell several horses to few different countries but the goal is to come back to the stage – presenting the new place, new ideas and new opportunities not only for ourselves but also for our colleagues – the breeders. As we may have seen the auction not only resulted in the horses sold to Iran, Romania and Poland but also in the raise of interest in our horses in general – many breeders also very beginners calls and

congratulate the idea by the occasion asking for our horse offer and it is the most important what we could have reached.

We do hope that StanRed Arabians will settle down once again as successful and inspiring operation and friendly auction at its place will remain in the calendar of Arabian horse enthusiasts visiting Poland in August.
