

THE 2025 Brazilian National ARABIAN HORSE SHOW

Text by: Mario Braga

The 44th edition of the Brazilian National Show is one for the storybooks. A venue with so many new attractions but at the same time delivering the high quality it has become known for in all sorts of ways, by breeders, exhibitors and spectators alike.

It also marked the resounding success of the first edition of the GCAT Show Americas hosted in São Paulo. Visitors from all over the world came to prestige this amazing initiative with their presence.

This year the event started on July 9th with the Brazil Cup Show, then with the Brazilian National Show, ending with the GCAT São Paulo edition on July 13th and 14th.

The Brazilian National Show

This was a special year for the Brazilian Nationals. It represented at the same time the

consolidation of some important cycles while welcoming other great new ones.

A major example is the successful debut of a group of previous National Champion Stallions as sires at this National edition, representing a most welcome renovation in the show ring while endorsing the breeders' right decisions that led to this amazing outcome.

The introduction of the GCAT Show São Paulo following the Brazilian Nationals was another novelty that proved to be a welcome addition among the general public.

A record of foreign visitors from Europe, the Middle East, North and South America to both shows proves that the incredible work involved in the making of this event definitely paid off.

As far as consolidation is concerned, the two tributes that were done this year rendered a much-deserved recognition to two of our breeds greats: José Alves and Zezé Rodrigues.

A special sales event called the Patrons Parade was also held during the show, adding up the many private treaty sales of horses, breedings and embryos done during and after the show.

This year a total of 220 horses were presented in the halter and performance divisions of the National Show. A group of distinguished international judges was selected to adjudicate the competitors and the judging panel was comprised of the following members:

- Steve Dady – United States
- Glenn Schoukens – Belgium

- Willy Open – Argentina
- Ted Carson – United States
- Francisco do Rego – Brazil
- Jeff Schall – United States

The ring master duties were performed by the amazing Juan Stuckey and Kathy Smith was the show's steward.

Lifetime Achievement Award: Jose Alves Filho

A much-deserved homage was done with the Lifetime Achievement Award this year having José Alves Filho, founder of Haras JM, as the recipient of the prize.

A former president of ABCCA, José Alves has been known for some great horses bred or owned by him while building the success of his great breeding program, that has been in activity for over thirty years. A breeding program that gave him the honor of being chosen the best Breeder and Exhibitor in Brazil, for over ten years in a row.

Among these horses is the unique Europa El Jamaal, bred by him and the first Brazilian born to be named U.S. and Canadian National Champion Mare on top of also winning at the National Shows of Brazil and Saudi Arabia.

His stallion roster boosted some of the finest

stallions in Brazil, including Style SRA, Pscore, Vaalente, Yllan el Jamaal, Sir Fames HBV and later Aria Rakeem, whom he leased in the U.S. last year.

Among the Brazilian National Champion Mares bred by him are Piettra di Style JM and Shannaya D'Magnum JM. His more recent win was with Jucienne D'Bandit JM, who just won the coveted Gold Champion Junior Filly at the Brazilian Nationals. In the meantime, his international contender, the beautiful Wiezas Diamond ORA keeps winning major titles in the U.S.A.

Always very active in fostering various initiatives to promote the Arabian horse, Jose Alves has a very quiet demeanor, and despite his truly huge contributions to the Arabian horse in Brazil, he seldom brings any attention to himself.

Among his many contributions is the Brazil Cup, a project that he supports firmly since its inception, allowing many new breeders to experience the thrill of the show ring and bringing newcomers to the breed.

A tribute to Zezé Rodrigues

A due recognition to one of our industry most influential member was also done with the tribute to Zezé Rodrigues.

Zezé has influenced and formed generations of trainers, breeders and riders in his over fifty

years of working with Arabian horses. Member of a family of horsemen, Zezé has also helped his own sons, Alcides, João Batista and Diego to achieve top honors as trainers in Brazil and abroad.

Zezé started his career with Arabian horses at Haras Morro Vermelho, a very traditional farm in the seventies. It was during the eighties that he met the great Pole Levy of Haras Capim Fino and launched his career as a trainer and handler with Jaguar Training Center.

After many years working with Pole he decided to establish his own training facility and opened ZR Training that is in full operation to this day, with the help of his wife Carolina and their daughters.

Zezé won over a hundred National titles in both halter and performance. He was also the first Brazilian to win abroad, more specifically in Scottsdale, the toughest show on Earth at the time, riding the Brazilian bred Munir HCF in Western Pleasure Open, and taking the Reserve Championship out of over 250 entries.

The Brazilian Arabian horse community has Zezé Rodrigues in the highest regard and acknowledges his many contributions during his long involvement with Arabian horses.
