

Sopot

ARABIAN HORSE SHOW

22-23 July 2023

text and photos by Ewa Imielska-Hebda

This year again we arrived to Sopot, which is one of the most popular resort towns on the Baltic Sea coast in Poland and a popular holiday destination. There is definitely something unique about atmosphere of this place, where we can enjoy the pleasant summer vibe, vibrant atmosphere, sandy beaches and the sea.

It's not at all suprising that since year 2020, when the first edition of Sopot Arabian Horse Show took place, it undoubtedly became an event that all arabian horse enthusiasts look forward to. It has become a permanent fixture in the global Arabian horse calendar and on the map of cultural events on the Polish Tri-City Riviera.

As we could see by ourselves, the blending of this holiday atmosphere with the arabian horse show was a spot on idea, which flourished for four years, since this year it was already the fourth edition of this event. It took place on 22-23 July 2023 on the green premises of the Sopot Hippodrome, one of the oldest hippodromes in Poland and a place of rich tradition and more than 100 years history.

Alhtought the weather was a little fickle it was a really enjoyable weekend, and the organisers did their best to make all the guests feel welcome and happy. The aim of the

show as we see it is about promoting the beauty of Arabian Horses in a summer, relaxing and friendly atmosphere, gathering the owners and breeders of arabian horses from over the world. A total of 53 horses were entered, with 49 making their way to the show ground, but it was a matter of quality rather than quantity, because the participating horses were all of very high quality. The following panel of judges Marianne Tengstedt (Denmark), Janice McCrea (USA), Mohamed Zaghloul Omar (Egypt), Chris Lowe (UK) and Elisa Grassi (Italy) very carefully and diligently assessed the participating horses during the two days of the show. There were moments of awe when the horses competed with each other and moments of sincere happiness when the owners and breeders of the winning horses celebrated their successes with pride and joy. The Show was again a succesfull one and it captured a wide audience, especially on the second day when the Championships took place, but if someone was unable to come to Sopot, the show was also aired online by the Arabian Essence TV.

The organisers of the show declare that every year they do their best and strive to make this show as best as possible and surely they again did a great job by making this Show proffesional, smooth, pleasant and memorable one for all.
