The name Mountain's Arabian Show refers to the region of Belo Horizonte, capital of Minas Gerais state, the third largest Brazilian state in size, population and in Gross National Product. The show is also one of the largest and most important to the Arabian horse industry in the country. It took place June 4 to 6 at the beginning of the Brazilian winter season, under temperature between 8 and 16 degrees centigrade. This show also coincide with Saint John's festivities a tradition in Brazil called "festas juninas" (June parties). So, not only you have a great show but also the visitors are also entertained at the parties thrown by the breeders. This year two parties were lots of fun, the one at Haras Rancho Arabco of Silvio Barbosa Neto and the one at Haras Sahara of Salim Mattar.
