Anticipating the atmosphere that will take place at the Brazilian Nationals, the International Show and the Breeders' Cup, took place in Bragança Paulista in the interior of the São Paulo state, had the return of Power World JP to the ring, introduced his son HK Keav Power as one of the most promising colts from Brazil, consecrated the colt Johrdan El Jamaal and presented two ineditds females that will go to the roll of favorites : the mare *Magic Moment and the filly Berylle El Ludjin.

The International and the Breeders' Cup have the power of not only anticipate competition in the ring, but it gives the tone and climate between the breeders of what to expect at the Nationals next November. Based on what happens in Bragança, the climate will be very exciting. During the 4 days of the exposition we had 3 receptions with sales and all with excellent results. The first one, on Friday night, the Association hosted at Estalagem Don João restaurant the 3rd. Breeding Sale of very important Brazilian stallions. The second one was the Confraternization Luncheon hosted by the Assotiation

president João e Elisa Sorvilo from Haras Vale Formoso, that on Saturday had over 400 people present and looking forward to seeing the Arabian horses and talk about them, and finally on Sunday afternoon, after the Show was finished, Zico and Cristiane Guardia got together with breeders at Stud Training Center for a farewell cocktail. The judges were the Americans Bruce McCrea and Chris Culbreth and the Brazilian Reinaldo Rocha Leão, had unanimous decisions at halter class and only four at the Championship, all of the horses cited above.

Breeders' Cup: The stigma of Stigmatas

After its fifth victory last year, Haras Vanguarda won the beautiful Baccarat crystal trophy that for 12 years was chased by the breeders. This year it was a magnificent crystal trophy, made exclusively for the Associação Brasileira dos Criadores do Cavalo Árabe, and it has already become the new object of desire by every breeder of Arabian horses in Brazil. The one that was ahead and left its stigma etched in the trophy was Carlos Menezes' haras, his wife Jacqueline, and their sons Matheus, Camila and Lucas from Haras Stigmatas.

Anyone that has been around the Arabian horse shows for more than three years, will certainly remember that animated "troupe" that would follow the circuit showing off with great pride a beautiful and elegant horse named Lumiar Jazz, who would always win Champion Gelding and Champion in Liberty Classes. Jazz, as everyone knew him, unfortunately died, but not before leaving with the Menezes a pride for the Arabian horse that lasts to this day as they had once for their loved gelding. This passion and talent for breeding Arabian horses is the explanation for their great feat, that is reached always by more traditional breeders, but that at this new version of the Breeder's Cup was born stigmatized by Stigmatas. By regulation, Breeders' Cup is an event exclusively for breeders, they can present up to four horses up to thirty months old, by their own breeding program and that have

not yet being commercialized. They are judged by the European system of adding their score given by the judges: Arabian type, head and neck, body, legs, movement and presence. The result that qualifies the breeders is by

adding the score of the three animals with highest score. The Menezes showed three fillies Stig Tarsila (El Nabila B x AF Tabla by *Delmar/Marsianin) with 114 points; Stig Saphyra (Reneek El Jamall x RFI Essencja by *Celaddin/Aladdin) with 113 points and the colt Stig Fame Magnum (Magnum Psyche x *Fame Cherie by Fame VF/Bey Shah) with 108 points, for a total of

335 points.

The Breeders' Cup also acknowledges and gives awards to the Top Ten with the one with the highest score receiving a Premium Cup, the replica of the Breeders' Cup in a small size. The winner of the Premium Cup was HK Keav
