

# Brazilian Breeders' Cup 2018:

## A peculiar show

## dedicated exclusively to breeders

The Brazilian Breeders' Cup is, alongside the National Arabian Horse Show, one of the most important events in the country. It is long awaited by the breeders that had spent the whole year planning the pieces to be used in this peculiar system of judgement and awarding of prizes.

This show, exclusively to the breeders of the animals where exhibitors-only are not allowed to take part, was introduced in 1996 by at the time Vice-President of the Arabian Breeders Association of Brazil (ABBCA), Rubens Jordão and the judge, Luiz Rocco. They maintained only the scoring system without the comparative judgement. Horses are grouped by gender and age up to 36 months, therefore the last three generations produced by each breeder. The participants can enrol up to four horses, in this case necessarily of the two sexes. The Cup, a wonderful crystal sculpture embodied by a couple of palm leaves leafing out, is granted to the breeder with the highest score from the sum total of the points acquired by three horses of the breeder's choice, after the highest and lowest score of each item judged (type, head, neck, body, legs and movement & presence) had been ruled out.

In its 23<sup>rd</sup> version, the Brazilian Breeders' Cup was held on December 8, 2018 at the Helvetia Riding Centre in Indaia-tuba-SP, the same place where The National Arabian Horse Show is held. The Cup was judged by Christine Jamar (Belgium), Graham Smith (Australia), Joseph Polo (USA), Muri-lo Kammer (Brazil) e Robert Boggs (USA).

Besides the Breeders' Cup, there are prizes for the 10 horses with most points and the scoring leader receives the trophy Premium Cup. Recently, the title Stallion Cup has been introduced awarding the breeder with the highest sum total of all his sons that had been judged.

The Breeders Association, presided by Luciano Cury, has added an extra attraction to the event: the Brazilian Breeders Cup Championship divided in two classes: male and female. The 5 horses of each sex with most points take part in the competition, except the Premium Cup; and the three best horses will be chosen and awarded with Gold, Silver and Bronze by the Comparative System.

## The Breeders' Cup 2018 goes to Haras Sahara

Haras Sahara, owned by Salim Mattar located Minas Gerais state in the Southeast Region of the country, was the winner of the 23<sup>rd</sup> Brazilian Breeders' Cup. It is the third time that Mattar conquers the title, the other two were in 2014 and 2015.

The breeding of Salim Mattar presented four horses to the judges who with the discards dictated by the rules won the Breeders' Cup with 991.5 points.

Next comes Haras Vilas dos Pinheiros, owned by Jaime Pinheiro, who was the winner of the Breeders' Cup 2016 and that, this time, reached the total of 989 points. In third place we have Rodrigo Forte's RFI Arabians which had already conquered the 2011 and 2017 titles and, in this one, achieved 984 points. The seven-point-only difference between the first and the third place illustrates well the high-level of competitiveness of the judgment, so much so that the winner was revealed only when the last class was judged.

Three females took Sahara to the Breeders' 2018: Sahara Misshaela (Shael Dream Desert by \*Ansata Shaamis out of \*Marina Mist by Marwan Al Shaqab) that won the Premium Cup title as the horse with the most points; Sahara Ameenah (OFW Magic Wan by Marwan Al Shaqab out of Sahara Aroussah by \*Vaalent), who was the third Top Ten Horse with the most points, and Sahara Asirah (TF Afrikhan Shah by Botswana out of Sahara Angel by \*WH Justice), who completed the winning team of Salim Mattar.

## The Premium Cup 2018, Sahara Misshaela

She received four scores of 19.5 in type, five scores of 19.5 in head, five scores of 19 in neck and five scores of 18.5 in body. In legs, she obtained scores between 15.5 and 16 and in movement & presence, 18.5 and 19. Sahara Misshaela is a daughter of Shael Dream Desert (Ansata Shaa-mis x Eletra por Hadid), sire that was imported from Italy to Brazil in 2005, producing intensely until 2009 when he was then exported to the United States. Nowadays he is breeding in Italy at Giacomo Capecci Arabians.

## Brazilian Breeders' Cup Championship

The Breeders' Cup Championship judgment closed this exciting show introducing yet another way to pay tribute to the breeder's vigorous selecting work. The horses with the highest points had the opportunity to go back to the show again, this time to be chosen by the Comparative System of Judgment with the same judge panel of the event. The outcome showed how powerful is the influence that the amazing sire Marwan Al Shaqab has over the current Brazilian breeding.

He is the maternal grandsire of the Champions Gold Colt Aziz MAM and Gold Filly Lady Dominica JSZ. He is the paternal grandsire of the Champion Silver Colt TS Prince El Khidam and of the Champion Silver Filly Josephine HVP. He is also the father of the Champion Bronze Filly Antigua HVP and paternal grandsire of the Champion Bronze Colt Intense Arabco.

Both Gold Champions of this judgment bring a strong connection to the Chilean breeding. The Gold Filly Lady Dominica JSZ was bred in Brazil by the Chilean Jorge Selume from Haras Santa Marta. She is the daughter of the American Dominic by Da Vinci, breeding at Estância Las Rosas in Uruguai. Dominica's mother, Breta UB, is one of the significant dams of the Haras Vila dos Pinheiros by OFW Magic Wan (Marwan Al Shaqab).

The Champion Gold Colt Aziz MAM is the son of the Chilean sire HP Ali by HP Shakir, a great-great grandson of Bey Shah, chiefly responsible for the top quality in the Chilean breeding. The mother of Aziz is RL Alita MAM by El Shakhry, a Brazilian sire, son of \*FA El Shawan by Marwan Al Shaqab. Aziz MAM, one of the most outstanding colts of this generation, had already been National Champion Gold Yearling 2017, National Champion Gold Junior Colt 2018 and he was bred by the new Haras Dona Francisca, owned by Michel Morelato.

## Reception at the RFI Arabians

Making the most of the great phase of success that his brand RFI Arabians has reached in the world of Arabian Horses, Rodrigo Forte opened his charming Haras to the breeders and visitors of the Breeders' Cup. Seeing the selection work of Rodrigo Forte was a spellbinding moment, as well as the wonderful get, equally mesmerizing, that his stallion RFI Maktub bequeathed to the Brazilian breeding.
