ECAHO C INTERNATIONAL SHOW

text by: Fabio Brianzoni
photos by: Giulia Bontempi

*I*t is still a success this second edition of the Elementa Arabian Masters Show, which has now found its permanent home at the ELEMENTA Resort and breeding farm in Bracciano. The days for the event were on the second weekend of September, specifically the 10th and 11th. ELEMENTA is located just outside Bracciano, a beautiful town with a large lake, on the outskirts of Rome, so it was an excellent location for foreign judges to take advantage of a short but always breathtaking visit to the capital. The event is growing and this year with great commitment and courage by Dr. Laura Mascagna and Elementa center director Dr. Ing. Lorenzo Bellia, a Liberty Class competition was added. The Liberty is a competition that excites, it is the magical moment when horse and trainer finally meet in freedom, it is timed, there is a time for movement in which the judges give marks for aptitude and an ever-changing time for each competitor in which the handler has to take the horse back. It is wonderful to see an Arabian horse free to perform the movement that suits it best: the trot. Equally beautiful is to see the horse that at the end of his free movement time in the ring lets himself be approached and caught, as if he understood that this competition must be won together. Race moreover with an important prize money: 3,000 euros to be divided among the

top three finishers. Liberty scores, in addition to the Ecaho affiliated Class C international were awarded by Mrs. Hennekens-van Nes Helen (Ned), Mr. Tarczynski Tomasz (Poland), Mrs. Annaratone-Ferraroni Maria (Italy) and Dr. Amira Abdel Wahab (UAE). ELEMENTA is one of the largest equestrian centers in Europe both in terms of size (180 hectares in size) and in terms of the number of resident boxes (120 or so) and additional (400) boxes for competitions so it is run by a team of about 50 men and women of operational staff. Dr. Ing. Bellia, also explained that during the year the property has supported major works, among the most notable being a huge jumping competition course entirely traversed underground by coils driven by a computerized system that regulates the flow of water during periods of rain or great drought keeping the soil (in soil and fabric) always dry and soft. This shows how attentive the property and Dr. Ing. Lorenzo are to safeguarding the horse, whatever breed it belongs to. We at the Arabian Horse were able to enjoy this technology during the show and the liberty competition as not a speck of dust was ever raised.

I am sure that every year Elementa will come up with something that will improve our lives and the lives of our

Arabians. The show took place in serene harmony, both on the field and in the VIP area, which in the case of this show is more of a living room, with sofas that really invite tranquility. On the court, in addition to the judges Mr. Gabriele Gallo handled the ring very well. De on his official debut Mr. Alessandro Marino and Mrs. Vittoria Panconi as assistant, both under the supervision of the more experienced Mr. Roberto Ceccaroni and Dr. Fabrizio Bianchi. Speaker in English Mr. Eric Blaak (Ned) and our own Dr. sa Vet. Laura Mascagna to whom our applause goes, certainly for the supervision but also for the patience and serenity she conveys to all present. Exceptional support by Aurora and Viola. Excellent music that entertained us for the two-day show by Mr. Alessio Stragapede.

What else to say about this show? Certainly that those who attended last year's debut wanted to come back this year and maybe like me already planned to be there next year as well and since every year ELEMENTA resort strives to do something more, and Laura loves to do for her audience always something new, who knows that next year the show might not become a Class B International. Now I leave you with the photos of the champions by Giulia Bontempi, also making her official debut as a photographer. Streaming, videos and results can be found at arabianessence.tv
