# ARABIAN FUTURITY EUROPE

***H**ost of the Arabian Futurity Europe Finals this year is for the first time “Tierpark Ströhen” managed by the Ismer Family.*

*Located in Ströhen (Germany), it is a magical location for the finals of the Arabian Futurity Europe and an attractive experience for competitors and visitors in these unprecedented Covid influenced times. The pandemic sadly led to some unavoidable cancelations, but those fortunate enough to attend thoroughly enjoyed the event.*

*“Arabian Futurity Europe” - founded in 2004 - is an initiative for breeders of Arabian horses within Europe, with the intention of bringing new energy to Arabian horse breeding and Arabian horse events in Europe. With an impressive collection of some of Europe’s highest quality breeding stallions this initiative allows breeders the opportunity to purchase one of these breedings in an open auction. The resulting horse born out of this breeding may be automatically enlisted to compete in the Futurity*

*Competition, which offers an attractive amount of prize money.*

*This concept provides an opportunity to both sides involved in Arabian horse breeding — the breeder and the stallion owner.*

*For the breeder, it brings stallions/breedings of excellent quality together at one place.*

*During the internet-based auction, interested parties may place a bid online (after registering on the official website). The highest bid for each breeding wins not only the distinguished breeding itself, but also a ticket to the Futurity Cup. The foal, Yearling and Junior born out of the breeding can compete for an honorable championship with prize money for all of the top 5 competitors.*

*The stallion owner who enters a stallion’s breeding in the auction also has the chance to compete for the “Get of Sire*

Award,” which is not only an honorable award, but also offers some attractive prize money.

Moreover, the Arabian Futurity Auction and Cup promotes the stallions European-wide and offers a market with excellent opportunities.
