ARABI

WRITTEN BY NOEMIE ZELLER

Arabian Futurity Europe - founded in 2004 - is an initiative for breeders of Arabian horses within Europe to bring new energy to Arabian horse breeding and Arabian horse events in Europe. With an impressive collection of some of Europe's highest quality breeding stallions, this initiative allows breeders the opportunity to purchase one of these breedings in an open Auction. The horse born out of this auction breeding gets automatically nominated to participate in the Futurity Competition. To compete with this foal offers an attractive amount of prize money equal to 100%.

This concept provides an incredible opportunity to both sides involved in Arabian horses — the breeder and the stallion owner. For the breeder, it brings the possibility to purchase breeding of excellent quality and future on to win money with the coming up foal all together at one place. For the stallion's owner, it is not only good publicity. But also, they can earn some prize money if foals out of their stallion are winning every year as every stallion is active for ten years from the first donation.

The Arabian Futurity Europe vision is to promote and organize a beautiful event for everybody with a welcoming atmosphere, bringing together the show scene and the riding people in one place and having a good time. The vision behind it is to create a very fair and friendly event, without expecting to earn money or any

profit for the organization – but bring people and memories together.

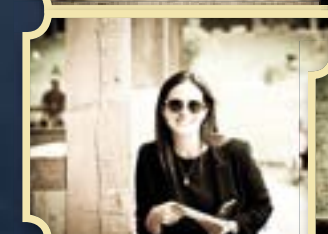

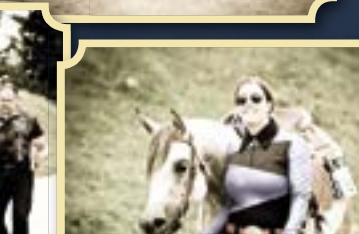

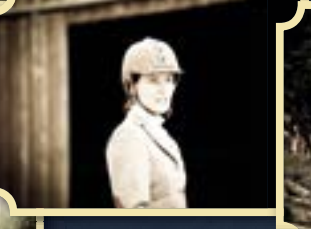

Arabian Futurity Europe 2021 took place on the 7th-8th of August 2021 at “Reitzsportzentrum Küffner Hof” in Germany, a perfect location for this year's event. The event was a success. The organizers did a great job to make it happen, bringing all together participants, breeders, owners and gathered audience to have a satisfying time at the event.

The Arabian Futurity Europe 2021 event was a breeder's show and sports competition. During the two-day event, we could not only admire the unique beauty of Arabian horses in the halter classes. But also their abilities in the riding classes followed by the championships. Here, all the categories got well represented. The event got also accompanied by a perfectly organized Breeder's Party and 1st European Future Star Sale Auction, where a total amount of 17 horses got offered, and interested buyers from all over the world could participate in the bidding even online. During the auction, 11 horses found a new home and new proud owners. It was indeed a pleasant and wonderful weekend in a hospitable and friendly atmosphere, and we had a chance to see many beautiful Arabian horses, talented riders, satisfied horse owners and breeders – we hope to welcome you all again in 2022!
