On Oct. 1 and 2, the curtain was lifted on the ANICA Italian National Show Championship, the Italian Straight Egyptian 2022 Championship and an American mounted class, in the extraordinary setting of the Horse Riviera Resort in San Giovanni in Marignano, in the province of Rimini. The Italian event, which turns 35 this year, was held under the direction of the now close-knit management established in 2021.

The organization left nothing to chance, everything was managed on time and with great participation and commitment by ANICA's experienced staff. From the set-ups to the catering, from the opening aperitif offered to all guests on Friday evening, to the cake dedicated to the show at the closing on Sunday evening, everything was warmly organized by a team of people who put energy and passion into the demanding task of offering Arabian horse enthusiasts a first-rate and exceptionally successful national event.

President Vincenzo Pellegrini again this year wanted to express warm thanks to those who made the event possible with their work, with their support as sponsors, with their presence because let us not forget that it is important to be there and to give a sign of optimism to breeders all over the

world, especially the small ones who sometimes struggle to attend but whose importance should never be underestimated. The high quality that Italian breeders continue to produce with perseverance represents a reason for national pride that should be supported and promoted.
