Days 2010

Arabian Horse Days 2010 are already behind us...

text by Anna Stojanowska | photos by Irina Filsinger

More than 150 horses entered for the Polish National Championships and 36 horses from the Pride of Poland main list, assembled on these only and exceptional August days in Janów Podlaski.

Long months of preparations, weeks of hard work, many hopes and fears had its finale on this extremely hot and sunny weekend comprising the Arabian Horse Days - Poland 2010. For all Arabian horse enthusiasts it is this event - not the seasons of the year - which gives rhythm to their lives. Breeders and merchants from all around the world follow the sale results with bated breath, trying to foresee in what direction the prices for Purebred Arabian horses will move in

the near future. The Polish National Championships results heat the emotions of horse owners who plan to enter their horses for the most prestigious shows. The perspective of confronting the top Polish show horses seems thrilling and disturbing at the same time, since the quality of horses presented during this year's gala leaves no doubt as to who's on top of world's rating. The class of mares 11 years old and above was composed of three World Champions and three more Champion title holders.

However, the weather during the Friday night opening of the 32nd Polish National Arabian Horse Show proved capricious, as if forgetting that this night should belong to the most exquisite horses in the world. A series of violent storms that tore through Poland on Friday night didn't spare

Arabian Horse Days 2010

Janów Podlaski. When the last three-year-olds left the show hall, and the junior male classes were announced as complete, outside a powerful storm was raging, snapping trees and downing powerlines. Heavy rain was pouring down on horses and men alike. The merciless gale swept through the Stud wreaking havoc and breaking fences. The full fury of the storm was evident when it ripped off the roofing from one of the tent stables.

It is hard to believe, but, fortunately, due to the people's full involvement and brave stance as well as the horses' composure, no one was seriously hurt - apart from a few bruises and scratches - although the area looked like a battlefield. It took the whole night for the organizers to set everything right again, but finally on Saturday morning the guests were welcome by hot and sunny weather and a perfect order at the Stud. The dramatic events from last night seemed but a distant memory.

Each undertaking's success - no matter what it is about - rests on people. And Polish Arabian horses have always been lucky to have wonderful people around them. I wish to express my reverence for all the trainers, handlers, staff and all the people involved in organization of this year's Arabian Horse Days for their enormous effort. Their work made it

possible to show, in a professional way, more than 120 horses during the class competition on Saturday, despite the overwhelming 60 Celsius degree heat. Sunday didn't prove less exhausting - on the contrary. And it began with the finals.

Championships are always an emotional experience. And Polish National Championship are an event that really makes your head spin. Each of the ten mares qualified for the finals could have been awarded the title of a champion. A proof of that is the Top Five which was very much like the one from the Bialka Junior Spring Show - only some of the fillies shifted their positions. The judges - Silvia Garde-Ehlert (Germany), Holger Ismer (Germany) and Mohammed Machmoum (Morocco) and Doug Dahmen (United States) could feel the heat rise - not only due to the weather but also due to extremely even competition. However, the champion was chosen unanimously. This title was awarded to the one-year-old ZIGI ZANA, a gorgeous daughter of Zagrobla and QR Marc, who had to give up the Junior Champion title in Bialka to Palatina. Silver medal was awarded to the extraordinarily noble PRIMERA by Eden C out of Preria by Ararat from Janów Podlaski. The Bronze medal went to another QR Marc daughter, the delicate PIACENZA out of Primavera by Emigrant from Michałów. All the medals were awarded to yearlings, who really showed exquisite quality. The fourth place went to the two-year-old WAGIRA by Enzo out of Wkra by Gazal Al Shaqab from Michałów, and the fifth - to the three-year old CHAOS PERSEFONA from Chrcynno-Palace Stud.

The Junior Male Championships brought another win to Michałów Stud, thanks to the handsome yearling colt EMPIRE by Enzo out of Emira by Laheeb - with his delicate, exotic looks - which made him the Champion at Bialka Junior Spring Show. This time he managed to defeat his strongest rival - the exquisite colt POGROM, who earned the silver medal. The dominance of yearlings was broken by an excellent mover - the two-year-old EL OMARI by Enzo out of Embra by Monogramm from Michałów, who was awarded the Bronze Medal. The rest of Top Five places were occupied by two more yearlings - ALMANZOR (El Nabila B - Alanina/Emigrant) from Janów and another QR Marc son - the dark bay ZIMARC out of Eksterna by Ekstern from Czeple Arabians.

While both Michałów and Janów Podlaski Studs were finding it difficult to cope with the amount of cups and medals earned by the youth - senior mares were getting ready

to fight for the champion title. What an excellent collection it was! The judges took some time to consider their final decision - but finally the announcement was made. The title of Polish National Champion Mare was unanimously awarded to PINGA (Gazal Al Shaqab - Pilar/Fawor), who has just returned from the journey to the United States. She looked like a million dollars and was excellently shown by Janek Trela. It hasn't been long since we saw her earn her first success in junior classes. And now this mature, proud mare delights and charms us with her beauty, unique only to Arabian horses. She was standing there like a shining bronze statue, carved by the most refined artist. One hour later she routed her competitors for the „Best in Show” title.

The most serious of Pinga's rivals in the Championships was the twelve-year-old EMMONA (Monogramm - Emilda/Pamir) from Michałowo who despite having a World Champion title on her account as well as the highest score of this year's show (95,33!) had to content herself with the Reserve Champion title. The Bronze medal was awarded to SEFORA (Ekstern-Sarwantka/Pepton) from Janów - beautiful as always. The other Top Five mares were also true divas of Polish breeding - the excellent-looking ETNOLOGIA (Gazal Al Shaqab-Etalanta/Europejczyk) from Janów Podlaski and ZAGROBLA (Monogramm-Zguba/Enrilo) from Michałowo. It's a shame that the titles to be awarded are so few...

The results of the competition for Senior Male Champion were quick and predictable. The Janów stallion ALEKT son of Piaff and Andaluzja by Sanadik El Shaklan won the judges' hearts. This solid and handsome stallion managed to safeguard the leading position achieved in his class. He won over the finer and very typical KABSZTAD. (Poganiń-Kwestura/Monogramm), who was finally awarded the reserve champion title. The Bronze medal and the fourth place in the final were awarded to horses from Janów Podlaski Stud - the snow-white SALAR (Ecaho-Saba/Etata) and the serious EURYKLES (Emigrant-Eutona/Etogram).

But that was not the end of all the excitement - a number of special prizes was yet to be awarded. Almost everybody experienced an honour, had the chance to feel the thrill of success, to get a handshake and congratulations... This is what such shows are for. It is not money but the hope for success and the feeling of triumph that make people take the trouble of competing.

Money was the topic that emerged a few hours later... The 41st Pride of Poland sale had long been a hot topic in the media. This year's edition, just as the previous ones, gave the bidders the unique opportunity to offer a price for something that seems to be priceless: beauty. They say that beauty has no price - but this does not necessarily apply to the Arabian horse. In Janów Podlaski you can buy a dream...

In these hard times of worldwide financial crisis, while many economic powers have to struggle really hard, the Polish auction managed to cope with these hardships and escaped unharmed. The 2008 and 2009 financial results of the sale were stunning, or even anomalous. This year's auction can be considered "back to normal". No fireworks this time, but it all went well. All that is expected of a good auction was there: smiles on the faces of the purchasers, a high seller and swift bidding. Twenty six out 35 horses offered at the Pride of Poland auction were sold. Twenty more horses found their new owners at the Selection Sale.

The total financial result of the sale was almost 1,200,000 Euro. The honour of being the highest selling horse, just as everyone expected, fell to PILAR from Janów Podlaski, the dam of this year's Polish National Champion Mare - Pinga. PILAR was sold to Qatar for the price of 240,000 Euro. The second highest price - 90,000 Euro - was offered for ERMINA put on sale by Mrs Monika Luft (the purchaser wishes to preserve his anonymity) and the third highest - 82,000 Euro - was paid for WILGA from Michałowo, who goes to Belgium. The average price paid for a horse at this year's Pride of Poland sale was almost 40,000 Euro. What to want more?

When the auctioneer's hammer fell for the last time, and the emotions began to fade, one of the foreign visitors smiled at Mrs Barbara Mazur, who has been the organizer of the Arabian Horse Days for ten years, and said „on this very day of the year the whole world holds its breath watching the events at Janów Podlaski Stud”.
