*Montefalco is a picturesque Umbrian town, in the center of Italy, an ancient medieval village bordering with Foligno, a city with fame in the field of horse breeding and races. It hosted for years the famous race called Quintana, a seventeenth-century gallop race. Since years even the small Montefalco has set foot in horseworld thanks to its many breeding farms and competitions.*

*Montefalco has important historical roots dated back to Roman times. Thanks to its dominant position in the valley between Spoleto and Perugia Montefalco has seen its civilization flourish starting from the XI century until Renaissance. The story goes that Federico II Emperor of Holy Roman Empire and King of Jerusalem spent his childhood in Montefalco.*

*Not only Art, History, Culture and the Beauty of the green hills in the earth of central Italy make pleasant this place. Montefalco is also part of the food and wine trail called "Strada del Sagrantino", a natural path which let people enjoy one of the most appreciated wines produced in this part of the Umbrian land which attracts people from all over the world who come here to visit and appreciate its treasures.*

## MONTEFALCO ARABIAN SUMMER FESTIVAL

**T**otally immersed into the rich environment of the Umbrian hills, Montefalco Arabian Summer Festival contributes every year to the fame of this small town to be spread all over the Arabian horse world, both nationally and internationally.

The equestrian centre Le Lame Horse Sporting Club which hosted the show and which normally hosts jumping contests, is equipped with spacious structures, French sand show ground and 500 boxes. In addition to that, equestrian sport facilities are available and very appreciated by visitors.

Arabian horse lovers and ANICA breeders have been founding here for years the right place where meeting each other and showing their Arabian horses.

In the first row, regarding competitions, there are always the International ECAHO C Show and the Egyptian Event dedicated to the straight Egyptians.

The quality of horses was special confirming the great work of those who decide to show their horses here presenting them to the world, despite the number of entries were not so high.

The organizer Mr Roberto Ceccaroni and his staff invited a group of international judges to satisfy all category needs for International Show and the the Egyptian Event. The international Jury for was composed by Mrs Claudia Darius (Germany), Mrs Kedar Chen (Israel), Mr Gideon Reisel (Netherlands), Mr Al Mannai Hassan (Qatar), Mrs. Martine Van Hee (Belgium).

As Ring Master Dr Vet Laura Mascagna (Italy). A special thanks to the Disciplinary Committee Mrs Barbara Raso (Italy), Mr Alberto Manerba (Italy) Mrs Serenella Santoro and Mr Gianni Pratelli and to the dj Mr Gianluca Filippi

Cocchetta for the music. Official photographer Ms Sunny Sassudelli. Streaming, Score Speaker and Results by Arabian Essence. The Vip Table and the info for Exhibitors were perfectly organized by Mr Gianpaolo Teobaldelli.

The extraordinary warm weather has not influenced the natural horse and people vivacity. Organizers pumped their guests with delicious offer of local products for aperitivo, followed by a stunning dinner at a restaurant hidden among the hills.

The two day event was interesting and has confirmed the validity of the place and of the organization which did an excellent job in respect of all the sanitary measures.

See you there in 2022 with a lot of breeders and horses as this show deserves.

Small shows like this one, organized with dedication and passion, in historical places of inestimable historical and cultural value, as well as environmental and aesthetic, which bring added value to the world of Arabian horses and to the places where they are held thanks to the induced income they produce, should be supported in every way both by the associations and by the big breeders in terms of participation and sponsorship. It is important to support them because unlike large events that already have international support and are the standard-bearers of the Arabian horse in the world, small shows allow small breeders to show themselves to the world, and give the opportunity for large breeders to discover hidden breeding pearls that would otherwise remain invisible. The small shows are vital for the world of the Arabian morphology horse because they give a showcase to the small ones, to those who produce with great passion and immense effort. From that effort comes a great source of novelty that can give driving force to the world of Arabian horses and that should not be forgotten nor left behind.
