

Journées Nationales du cheval Arabe en France

by Fabio Brianzoni ■ photos by Paola Drera and ACA France

The ACA organized this year the National Days of the Arabian Horse, bringing together for the first time in one place the 3 great disciplines of excellence of the Arabian horse, endurance, show and race.

Despite the challenge was great in this very special year and the obstacles were numerous, a great quantity and overall quality of Arabian horses, judged and awarded by an international jury, was gathered.

Indeed, more than 120 thoroughbred Arabian horses participated, representing 51 farms, stables or owners.

Hopefully, we could see there the beginnings of a revival of the discipline of the show in France.

The results in terms of participation of public and breeders and owners were impressive. Organization took care of the guests supplying all safety protections needed as individual masks and hands gel and recommending distance between each other in the vip area.

All French breeders were looking forward to show their horses. For the first time thanks to the extraordinary economic effort by the organizers, the Web Tv Arabian Essence was at

the show to let all the world be in France, in Vicky to enjoy the 3 days of event.

On Friday August 14th, it was endurance that opened the ball rolling with the national final of the endurance horse breeding competitions.

After the selection made during the regional qualifying competitions, 65 young Arabian horses, thoroughbred or half-bred, competed in the 6 events dedicated to them. In living memory there had never been so many competitors and the quality was so good.

On 15th and 16th under a bright sun the Sichon equestrian stadium hosted the 47th edition of the French Arabian Thoroughbred Championship.

Despite the exceptional circumstances, many breeders and owners attended and the 63 horses present competed for the titles of French champions and special trophies for the 2020 edition.

Saturday August 15 was devoted to the qualifying classes of juniors and seniors, females and males as well as to the class of mares.

On Saturday evening, August 15th, after the qualifying classes for the French Arabian Thoroughbred Championship, the meeting was held at the Vichy-Bellerive racecourse.

Indeed, for the first time also in Vichy, 2 races reserved for thoroughbred Arabs were scheduled at the start and end of

the meeting, supporting the annual festival of the racecourse. On this occasion, Mr. Stéphane CHAZEL, president of the ACA and Mr. Alain

CHATTON, vice-president, presented the ACA prize to the winner of the first race.

Sunday August 16th was the day reserved for the gelding class then for the foal, yearling, junior and senior French Arabian Thoroughbred championships as well as the traditional special trophies rewarding the most beautiful heads, the best movements and the highest scores obtained during the qualifying classes.

For the second year in a row, it was in the magnificent setting of the Sichon stadium, with its stands designed by Gustave Eiffel that the many spectators and Internet users were able to admire the spectacle offered by the competitors. All the ingredients were there for the party to be beautiful and it was. Zeus, himself, waited until the end of the trials to let fall the few drops of rain that had threatened since morning.

The bet to bring together Arabian horse enthusiasts around these 3 queen disciplines was daring, but to believe all the participants, it was a success far beyond our expectations.

The ACA thanks all the participants, partners and service providers who have worked for this great success and looks forward to seeing you in Vichy next year. □

Finale Nationale Endurance

**GOLD MEDAL
YEARLING FILLIES
JAHIDJA D'ARTAGNAN**
ZEROX TE X BAHIDJA DE LA BARAQUE
B/O: GRIMAL JEAN-MICHEL

**GOLD MEDAL
