

PRIDE OF POLAND 2020

51ST EDITION

by Kamila Kozłowska ■ photos by Ewa Imielska-Hebda

The 2020 edition of the annual Polish Arabian Horse Festival in Janów Podlaski, organized by the Polish Jockey Club, was special for a number of reasons. Firstly, it was one of the very few shows that were not cancelled due to the current state of affairs and Covid-19 restrictions. However, very limited space for spectators and all the other safety measures introduced during the show, clearly showed that the world has irreversibly changed in the past few months. The organizers did not forget about all Arabian horse aficionados who were not able to attend the show in person and, in cooperation with Arabian Essence TV, provided a live broadcast that reached more than 65 thousand people in just four days! Secondly, unprecedented weather conditions, including extreme heat and humidity, made presentations in the showring more difficult for both horses and handlers. Luckily, Polish horses never fail to bewitch with their exceptional refinement and captivating beauty. Every energetic and powerful performance in the showring leaves everybody with goosebumps on their skin, no matter the temperature outside. Thanks to the tent installed to protect against the unpredictability of the weather, this year's show was no exception. Additionally, all the handlers went to

great lengths in helping horses to perform at their best under such challenging circumstances. Without a doubt, the newly established cash prizes must have provided additional motivation for the trainers to make every effort to end up on the podium. Financial appreciation for the owners of high scoring horses would not be possible without the support of Jan Krzysztof Ardanowski, the Polish Minister of Agriculture and Rural Development, who decided to allocate a substantial sum of money to attract more exhibitors. The prize pool reached almost one million Polish zlotys which is equivalent to EUR 233.000. Cash prizes put even more pressure on the judges: Christine Jamar-Demeersseman from Belgium, Claudia Darius from Germany, Amira Safady and Cedés Bakker, both from the Netherlands, as if an immense responsibility to assess 127 participants was not a big enough challenge by its own means.

The 42nd Polish National Arabian Horse Show started on Friday afternoon with junior male classes. Two sections of yearling colts and a combined class for 2- and 3-year-olds were a good opportunity to compare the progeny of various stallions. Class 4A left no doubt about who would become the shining star

of the show. The Michalow-bred fantastic Ferrum (Morion x Ferrmaria by El Omari) took the class by storm and achieved a spectacular score of 93.67 points, with 2 x 20 for type, 3 x 19.5 for head and neck and 3 x 20 for movement, leaving all his competitors far behind. Second place was awarded to the exotic black Enzo Blacklord (Wadee Al Shaqab x Estansja by Ekstern), bred and owned by Anna Janas-Naze. The interesting chestnut Chicago by Wortex Kalliste was the last colt in this division that qualified for the championships. Chicago's dam, the bay Ekstern daughter Calatea, has proven to be an outstanding producer for her owner Marek Kondrasiuk. The second class of yearling colts was a triumph of the Brazilian-bred 13-year-old bay RFI Farid. Two of his entirely unalike sons, the typy grey Kapitano AF (out of Karbona by Ekstern) and the bold bay Badian PA (out of Begonia by Kabil Al Shaqab) were placed in the first and second position, respectively. Third place for the Janow Podlaski-bred grey Atrato (Emerald J x Atma by Ekstern) meant that he also qualified for the Sunday championships. A small number of 3-year-old colts resulted in merging the classes for 2- and 3-year olds into one larger class. The 3-year-old chestnut moving machine bred by the Bialka Stud, Belmari (El Omari x Bint Ermina by Kabsztad), won the class ahead of the 2019 Silver Champion Yearling Colt Pointer (Sahm El Arab x Palanga by Ekstern) from Michalow and the 2019 Gold Champion Yearling Colt Star Farid (RFI Farid x Star of Africa by Marwan Al Shaqab), bred and owned by Wojciech Parczewski.

Both senior male classes featured only six stallions each. In the 4-6-year-old stallion's division, the two highest scores were a draw. The masculine and charismatic grey Empower (WH Justice x Eksterna by Ekstern) from Falborek Arabians received the same total score as the 5-year-old chestnut El Wiktorio (Eternal x Elwiktorija by Ekstern), bred and owned by Petroniusz Frejlich. With slightly higher marks for type, Empower managed to defeat El Wiktorio in the end. Third place went to the 4-year-old bay Ekstern son Edmund (out of Editha by Eden C) from the Michalow Stud. In the class of 7-year-old and older stallions, the well-balanced snow-white Barok (Om El Bellissimo x Baida by Balon), bred and owned by the Janow Podlaski Stud, came before the high-trotting grey Psyche Keret (Khidar x Psyche Victoria by Ekstern) from Chrcynno Palace and the 8-year-old grey Zloty Medal (QR Marc x Zlota Orda by Pesal) representing the Michalow Stud. All the above-mentioned stallions qualified for the Sunday championships.

Each and every female class on Saturday was an endless feast for the eyes. In the morning, the judges had an extremely difficult task of evaluating as many as twenty-eight yearlings, nineteen 2-year old and twelve 3-year old fillies. First place in class 1A was awarded to a beautifully moving bay filly from Janow Podlaski.

Brodnicza (Pogrom x Bambina by Kabil Al Shaqab) won by move with the exotic dark bay daughter of Wadee Al Shaqab, Laura KL (out of Lili PS by Ekstern), bred and owned by Klikowa Arabians. Third place in the class belonged to the Chrcynno Palace Stud and their lovely grey Echo Anastazja (Psyche Keret x Echo Aurora by Eternity Ibn Navarrone-D). Class 1B was conquered by the progeny of the 2015 World Champion Junior Colt Morion, proudly bred and owned by the Michalow Stud. All three places that qualified for the championships belonged to his lovely daughters. The gracefully trotting grey El Madera (out of El Medonia by Shanghai EA) from Michalow, with 92.17 points and a 20 for type, was the winner of the class. Two beautiful bay fillies, Amaranda RA (out of Alina PS by WH Justice) bred and owned by Czeslaw Golaszewski and Eurazja (out of Erebor by Empire) bred and owned by Alicja Najmowicz, placed second and third, respectively. The third division of yearling fillies was the triumph of Tomasz Tarczynski and his extremely good-looking grey ES Harir daughter Mamma Mia (out of VA Magnifica by Magic Magnifique). The judges showed appreciation for her perfectly proportioned head and beautifully shaped neck with well-deserved maximum scores. Second place was granted to the Michalow Stud for another amazing daughter of Morion, El Medida (out of El Medara by Shanghai EA). First two places in the first section of 2-year-old fillies were awarded to private breeders: Piotr Podgorny for the beautifully trotting grey Kabil Al Shaqab daughter Eskabila (out of Espanera by Kabsztad) and Alicja Najmowicz for the refined bay El Farida (RFI Farid x Esmeta by Ekstern). On the contrary, class 2B was all about the state studs. The breath-taking chestnut Elgarolia (El Omari x Elganza by Sanadik El Shaklan) from Michalow qualified for the championships with a great total score of 92.50 points, closely followed by the powerfully trotting bay Janow-bred Efidenia (Pomian x El Fada by Ekstern). In the 3-year-old fillies' division, the team from Janow Podlaski had yet another reason to celebrate. One of the best Ascot DD daughters, the grey Anguria (out of Anawera by Piaff) was awarded first place right ahead the grey Paprotnia (Elgast x Paeksa by Ekstern), bred and owned by Lech Blaszczyk.

Junior female competitions were merely a prelude to what we were all about to experience on Saturday afternoon. It was the older, more mature mares that ceaselessly took our breaths away and enchanted the jury. So much charm, femininity and refinement, all gathered in one place, resulted in some of the most spectacular scores of the show. The top step of the podium in class 7A again belonged to the Michalow Stud. Their beautifully moving grey Parantella (Kabil Al Shaqab x Palanga by Ekstern) won the class right ahead another Ascot DD daughter Tacjana (out of Tartina by Perseusz), bred and owned by the Janow Podlaski

Stud. The victory of another mare from Janow Podlaski in the next class came as no surprise. The 6-year-old regally-bred Petula is the daughter of two remarkable representatives of the breed, the multi-champion Kabil Al Shaqab and the unforgettable Pinga (by Gazal Al Shaqab). Her slightly younger stable companion, the chestnut Pregola, secured second place in the class with her powerful trot that she must have inherited from both her sire Vitorio TO and her dam Perespa (by Enzo). The outstanding presentation of the strikingly beautiful half-sister to the Platinum World Champion Mare Emandoria in the first division of 7-10-year-old mares evoked all kinds of positive emotions. The classy, correct and charismatic Emandorissa (Abha Qatar x Emanda by Ecaho) must have put a spell on the judges, who lavished her with a superb total score of 94.17 points, making her the highest scoring horse of the show. Second place went to the 8-year-old bay Wiga (Om El Bellissimo x Wologda by Ekstern) from Janow Podlaski, also abundantly feminine and elegant. The second class of 7-10-year-old mares was a close fight between the state studs. The beautiful bay Emandilla (Om El Shahmaan x Espadrilla by Monogram) representing Michalow received the same total score of 93.00 points as the gorgeous grey Om El Bellissimo daughter Euzona (out of Euzetia by Etogram) from Janow Podlaski. Only 0.5-point difference in the marks for type resulted in Emandilla's triumph. The emotions were running high until the very end of the day. The final class of 11-year-old and older mares belonged to the precious Pilarosa (Al Adeed Al Shaqab x Pilar by Favor). Looking better than ever, this twelve-year-old Janow-bred flea-bitten grey beauty, who is now the pride and joy of Nina Suskiewiczova, returned to her homeland to conquer the showring. Similarly to Emandorissa, Pilarosa received a remarkable score of 94.00 points and left the competition, a high-quality Ekstern daughter, far behind. The twelve-year-old grey Psyche Kreuzza (out of Pallas-Atena by Ecaho) from Chrcynno Palace with 91.83 points also qualified for the championships. However, at the end of the day no one doubted that the senior female championship will be a fierce fight between the two highest scoring mares of the show, Emandorissa and Pilarosa. Both of them represent the best bloodlines existing in the Michalow and Janow Podlaski breeding programmes. The ethereal Emandorissa belongs to the meritorious family of Milordka, otherwise known as the world-famous Michalow 'E-line', while Pilarosa is a truly remarkable representative of the treasured Janow Podlaski 'P-line', the highly esteemed Szamrajowka damline.

On Sunday morning, both the temperature outside and the feeling of excitement before the upcoming championships reached the zenith. After a brief welcoming speech, nine yearling fillies that qualified for the championship were presented in front of the audience. All four judges took up the challenge of choosing the top

five horses, including the three medallists. It is never easy and the judges were not unanimous in their decisions, but finally the three champions were selected from amongst the class winners. The Gold Champion Yearling Filly title, together with the 'Best Head' trophy, was awarded to the highly refined Mamma Mia, bred and owned by Tomasz Tarczynski. The equally exquisite grey El Madera won the Silver Champion award for the Michalow Stud and the attractive, high trotting Brodnica, bred by the hosts of the show, became Bronze Champion Yearling Filly. The remaining Top Five titles were granted to the Michalow-bred grey El Medida and the dark bay Laura KL, bred and owned by Klikowa Arabians.

In the Yearling Colts Championship, the uncertainty was mostly related to the silver and bronze medals, which finally went to two extremely unlike RFI Farid sons, the grey Kapitano AF and the bay Badian PA, respectively. Nevertheless, it was the phenomenal Ferrum that captured everyone's attention and unsurprisingly stole the show. No one doubted that he would repeat his success from this year's Bialka Junior Spring Show. Again, the exceptional combination of distinctive Arabian type and powerful animated trot made him unanimous Gold Champion Yearling Colt and Best Mover of the show. However, Ferrum went far beyond that by winning 'Best in Show' prize. It was the icing on the cake; the true accomplishment that no other junior colt ever achieved since the prize was first established in 1993! With such fierce competition, there was no space on the podium left for Enzo Blacklord and Atrato, who received the Top Five awards.

Out of six high-quality fillies that entered the junior championship, majority of the judges selected the winner of class 2B, the 2-year-old charming chestnut Elgarolia from Michalow, to become Gold Champion Junior Filly. Silver and Bronze medals went to the Janow Podlaski Stud for the 2-year-old bay Pomian daughter Efidenia and the 3-year-old grey Anguria by Ascot DD. The two remaining Top Five titles were awarded to private breeders: Lech Blaszczyk for the 3-year-old grey Paprotnia and Alicja Najmowicz for the 2-year-old bay El Farida.

Only three colts qualified for the junior championship. What is more, the difference in their total scores was not significant enough to prejudge the final placement on the podium. Thus, the judges were far from unanimous when selecting the three medallists. Therefore, Gold Champion title was awarded to the refined bay Star Farid who entered the championship from the third position in the class. This promising son of RFI Farid repeated his own success from the 2019 Polish Nationals as well as the 2020 Bialka Junior Spring Show, where he was also number one on the podium. With his victory, RFI Farid became an undisputable front-runner when it comes to the number of winning get in the yearling and junior male championships.

Three out of six champions were chosen from among his progeny. The Silver Champion title went to the Bialka Stud and their attractive chestnut Belmari who, with his animated trot, won the class two days earlier. Last but not least, the third place on the podium was granted to the typey grey Pointer from Michalow.

Senior females' competition was probably the most anticipated championship of the day. Selecting only three mares from among ten exceptional representatives of the breed looked like 'mission impossible', especially when every single one of them was a true embodiment of captivating beauty, feminine charm and noble quality. However, the two highest scoring mares stood out from the crowd and, as expected, the competition for the gold medal was really a battle between the enchanting Emandorissa and the prepossessing Pilarosa. Again, the judges' verdicts were divided, but the exceptional refinement and feminine beauty of Pilarosa prevailed over the distinctive Arabian type and noble presence of Emandorissa. The truth is that either of these two flea-bitten grey beauties could have become Gold Champion Mare, but this time it was Nina Suskeviciova who proudly collected the highest trophy with Pilarosa at her side. Apart from a special trophy for the highest scoring mare, Emandorissa added yet another silver medal to the long list of trophies that her breeders, the Michalow Stud, won over the years. The Janow Podlaski Stud, apart from being the proud breeder of Gold Champion Mare, were also entitled to bronze medal for their lovely Om El Bellissimo daughter Euzona, a 9-year-old gorgeous grey mare of superb phenotype and harmonious build. The pride of Chrcynno Palace Stud, the 12-year-old snow-white Psyche Kreuzza, secured one of the Top Five titles by trotting with spectacular suspension. With all these grey beauties in the ring, it is extremely challenging for a bay mare to be appreciated, but with all her undeniable charm and charisma, Emandilla won another Top Five title for the Michalow Stud.

When it comes to the senior male championship, there were no major surprises. The judges were unanimous when choosing both gold and silver medallists. Thus, the 5-year-old Empower representing Falborek Arabians and the 9-year-old Barok from Janow Podlaski became unanimous Gold and Silver Champion Stallions, respectively. Opinions were divided as to who should be named Bronze Champion Stallion. In the end, the judges selected Psyche Keret from Chrcynno Palace over the Michalow-bred Zloty Medal, who received the Top Five title together with his bay stable companion Edmund.

Although not present at the show, Ekstern deserves a special award as the outstanding sire of high-quality broodmares. Out of all forty horses that qualified for the championships, fourteen were the progeny of Ekstern daughters, which means that his strong genetic prepotency, noticeable in his direct get, is also extended

onto next generations.

The annual Pride of Poland sale has always been considered a great opportunity to obtain high-quality breeding material at reasonable prices. The 51st edition of the auction was awaited with great apprehension. When it started on Sunday afternoon, there seemed to be a lot of tension in the air. The uncertainty resulted mainly from travel restrictions related to Covid-19. In practice, it meant that many serious buyers, potentially interested in purchasing horses, could not arrive to Janow Podlaski in person. Sending representatives to make bids on behalf of breeders is a common practice in the Arabian horse industry and it had certainly happened before. However, unable to admire horses in the ring, potential buyers are less likely to make high bids, especially in these uncertain times when most people think twice before spending large sums of money. The fact that some horses were not physically present during the auction, including the incomparable Perfinka, officially nominated as the star of the 2020 edition, was another reason to have reservations about a spectacular success of the sale. The beginning of the auction looked like there were some good reasons to be nervous. However, with as many as twenty-one horses offered for sale, a slow start is never an indication of the final result. Not once did the total income of the sale surprise even the greatest sceptics. It was Lot 4, an exciting offer to purchase the unborn foal by the World Champion Stallion Marajj and out of the Platinum World Champion Mare Emandoria, that changed the course of events. The two involved bidders, strongly believing in Marajj's and Emandoria's genetic abilities, were gradually increasing the price. Finally, Hanaya Stud from Switzerland made the winning bid of EUR 70.000. Yet, it was the sale of Lot 10, the sensational superstar Perfinka, that everybody was waiting for. This magnificent mare definitely deserves the title of show horse supreme. Being one of the most accomplished horses ever bred by the Bialka Stud, Perfinka has proven to be the true queen of the showing across Europe, the Middle East and, more recently, also in the USA. After a long fierce fight between three major bidders, Perfinka found a new home in Saudi Arabia. The astronomical sum of EUR 1.250.000 was the final price that Princess Jamila Bint Abdulmajid Al Saud decided to pay to include Perfinka in her breeding programme. Another amazing opportunity to enhance any breeding programme with a full sibling to the 2019 Silver World Champion Filly Eralda came with Lot 12. Falborek Arabians decided to share the remarkable heritage of their highly-decorated 9-year-old Enezja with other breeders by offering her embryo by Emerald J for sale. Again, Hanaya Stud from Switzerland made the highest bid of EUR 55.000. The emotions were running high until the very end of the auction, when Lot 21, the wonderfully designed Ekstern daughter Lawinia, reached a well-deserved price of EUR 95.000.

Flaxman Arabians from Belgium, that made the final bid, had the chance admire Lawinia's full potential as one of the best movers ever bred by the Michalow Stud, as she was presented loose in front of the enchanted audience. Overall, the Pride of Poland sale concluded with ten horses sold for the total of EUR 1.587.000. The Monday Summer Sale, where fifteen out of twenty-three horses managed to find new owners, added another EUR 157.000 to the final income. In the light of recent events, the sale of almost 50% of the horses in the Pride of Poland auction and almost 70% in the Summer Sale was beyond all expectations. This year's edition of the Polish Arabian Horse Days has definitely demonstrated that, no matter what is happening in the outside world, Poland is still home to some of the most refined and captivating Arabian horses on the planet. The irresistible beauty and enchanting femininity of Polish mares, combined with their harmonious build, athletic abilities and powerful movement, are capable of satisfying some of the most demanding breeders around the globe. It is gratifying that even the Middle Eastern breeders who produce many outstanding and highly-decorated horses themselves, invariably pursue the highest quality breeding material in the Polish studs. Thus, high-quality broodmares at the core of the Polish breeding programme not only continuously improve the local population but also unceasingly attract potential buyers. On the other hand, to compete in a crowded market, both state studs and private breeders tend to introduce more and more internationally recognised stallions into their breeding programme. The cautious and selective addition of foreign blood, which helps in differentiating the limited genetic pool of the Polish flock and decreases excessive inbreeding, can also be quite beneficial for the population. The Michalow-bred World Champion Colt Morion (Kahil Al Shaqab x Mesalina by Ekstern), together with his promising progeny, could serve as an indication that, with careful and selective breeding, the use of foreign stallions can bring a desired outcome. Also, it was really encouraging to observe how the private breeding sector in Poland has flourished over the past few years. The number of private breeders that boldly reach for the highest trophies during the National Show has increased dramatically in the last ten years. For years, Poland has been the place of pilgrimages for breeders and enthusiasts from all over the world. All Arabian horse aficionados heard amazing stories about the captivating Polish horses capable of melting the coldest of hearts. If you had a chance to look into the beautiful black eyes of the ethereal Emandorissa... if you could spend some private time with the precious Pilarosa... if they were all yours, even if just for a moment... you would not think twice about visiting Poland. In the end, all Arabian horse lovers live for the moments like these... □
