

A young photographer 24 years old born in Annecy, 50 km south of Geneva. His passion for photography began with his first photos of concerts and shows. What became important to him was his desire to capture the moment. Subsequently he continued with weddings, expecting mothers and then babies, which somehow lead him to purebred Arabian Horses. So far he has attended just two competitions ( the Ladoire Intercontinental Cup in Deauville in october 2011 and the Wolrd Championship in Paris in december 2011). But his first photographs suggest a promising future. For 2012 he will be in Las Vegas in april and in many other competitions in Europe thereafter. Already a partner with arabhorsepromotion.com he hopes to continue and become a great photographer of the Arabian Horses...
