

While attending my first Arabian Horse Show in the mid 1970's, my heart became smitten with these magnificent creatures. It felt my whole world transform in an instant. A genuine and lifelong passion for the Arabian horse was ignited and that passion remains in my heart and soul.

At the time, I had no idea how significantly my life was about to be re-aligned, or how the experiences and adventures would shape both myself and my future. I could never have dreamed of all the amazing Arabian horses I would be blessed to experience and often care for. What I did understand so clearly, like an epiphany, was how they moved me. Everything Arabian it seemed. From that moment, now more than 50 years ago, I have always felt an unparalleled joy whenever I was close to these beautiful animals. For me, they are the gift that keeps on giving and the love affair that never ends. It is just that simple.

And so, it remains true today, perhaps even more so than ever. I simply cannot imagine my life without the Arabian horse and this community that I am so pleased to be a part of. It truly gives me the greatest pleasure to have the opportunity to capture with my images a jubilant expression, a majestic pose, or the natural beauty, charisma, or attitude they possess, which those of us who truly love them all respectfully recognize as the authentic character of the Arabian Horse. It truly is a wonderful life!
