In a world where luxury is often confined to the predictable, the Riding Safari Club (RSC) stands as a beacon for those who crave adventure and authenticity. RSC is not just a travel company—it's a movement, a lifestyle that celebrates the power of horses, the beauty of the natural world, and the rich cultural tapestry of the regions it explores. This year, the club is setting its sights on one of the world's most mystical and untouched regions: the Middle East and the Arabian Gulf - worlds where the horse is still king.
