

Agricon LOGISTIC

Maximum comfort and minimum transport time for your horses.

Text and photos by Agricon Logistic

International horse transport - Import:

Profit from our passion for horses. Win time and security with Agricon Logistic horse transport.

We take care of everything and ensure you a safe and smooth transportation of your horses! A professional and secure horse transport requires not only a lot of experience and know-how, but also a comprehensive and competent preparation. Before your horses arrive at the destination, you will of course receive a detailed and professional advice of the entire shipping process. That way you have a secure feeling from the start.

From the application of permits, the preparation of health certificates, the clearance and inspection by the official veterinarian, the transportation in special horse transport trucks to the airport, plus the customs clearance to load

your horses into special flight containers and the airfreight to country of destination we take care and watch over everything during the horse transportation.

We assure that, throughout the whole horse transport your horses will be attended and cared by our own professional grooms. Starting with the preparations and the coordination of loading, the securing of your horses for a comfortable and safe transport through to the reception at the destination. We are there when your horse needs us. If requested, we have the capacity to prepare your horses in our own stables consisting of 25 boxes as well as a separate quarantine barn with 20 horseboxes.

INTERNATIONAL HORSETRANSPORT

Horse transport - Attendance:

We know what your horses feel.

The preparation for transport of course includes the professional and permanent support from the stables of departure to the final reception barn.

In addition to the employed staff of our professional flight attendants, we only work with reliable horse grooms (according to IATA Live Animals Regulations), professional

horse transport companies and specialized agents. To ensure an optimum of supply, jerry cans, buckets, hay net and bedding are of course provided. The flight attendants for our international horse transports are precisely briefed in advance to assure that your horses are in good hands during the entire flight.

International horse transport - Service:

We are prepared for global horse transportation.

Profit from our ambition to find and realise the optimum for your horse transport! Profit from our passion, our experience and our highly qualified team. Profit from our worldwide network of selected partners who share our passion for highest standards in horse shipping – worldwide.

- road transport to stables at destination

International horse shipping - Export:

We accompany your horse safely through all requirements.

Each country has its own laws and regulations, regarding the necessary health certificates, customs clearance and quarantine requirement. That does not make things easier. But there is no need to worry.

We know the requirements and with our long-term experience with international horse transports you have an expert at your side, you can rely on. You will receive a comprehensive consultation regarding all the preparations for the export. This includes the process and implementation

of import customs and veterinary clearance in the destination country, as well as the booking of any required post-arrival quarantine.

Afterwards the horses are then moved in special horse transporter to reach the stable. Everything for your horse transportation is planned to the smallest detail, so that your horses arrive comfortably and safely in the country of destination.

Horse Transport:

We provide everything, to make sure your horses arrive safely at their destination.

Agricon Logistic sets up highest standards for the safe transport of your horses.

We exclusively work with reputable airlines such as Lufthansa, KLM, Martin Air, Emirates, Qatar Airways and experienced horse transporters. The horses entrusted to our care are transported safely to and from the airport by special horse-trucks. At the airlines handling terminal the animals are loaded in disinfected special horse transport containers before shipping by air. Of course the containers

meet the requirement of the IATA Live Animals Regulations. If necessary, the horses can be stabled at the airport before departure. That way the horses get the opportunity to get some rest before going on a long trip. We can assure that the monitoring and comprehensive care of the horses are guaranteed at any time during the entire horse transport.

This way it is guaranteed that your horses are safe and sound until they reach their point of destination.
