Tomasz Tarczyński is very famous all over the world as a breeder and as a judge.

His farm's name is Grobow Nad Pilika Stud and has a long tradition in breeding.

His passion for Arabian horses was born when he was a child and today is still representing important part of his life.

The farm is located just 1 hour and half from Warsaw and it is logistacally very interesting.

Not everybody knows that Tomasz was one of the first Polish breeders who imported breeding mares leading them to the international success.

TOMASZ TARCZYŃSKI

Tomasz loves to travel and spend his time with Arabian horses.

I personally remember of Tomasz watching pedigree and studing horses, many times.

Becoming one of the most important and young judges was just a matter of time.

Tomasz has a lovely family that represents the key of his success.

All the family works for their horses well-being helping him to build his success as a breeder.

DORIS MAGNIFIQUE
(MAGIC MAGNIFIQUE X DORIS D)

In his farm you can admire a great collection of broodmares such as broodmares like Ekstern's daughters and some of the best Polish broodmares, many great foals out of the most important and modern stallions and many young promising Arabians.

IN AHWAZ, IRAN WITH RENATA SHIBLER AND IRINA STIGLER

Tomasz is always very critical of his horses and he often underestimates the level of his farm. This is just because he aims to the highest level in breeding.

What we can suggest you is a visit at his farm on the occasion of one of the many important shows that are held in Poland every year. Wish you to enjoy the atmosphere at Grabow Nad Pilika Stud! □
