THE GREAT BROODMARES:

The Foundation of

Haras

FROM ITS VERY FIRST STEPS, HARAS JM DEMONSTRATED THE DIRECTION ITS BREEDING PROGRAM WOULD TAKE FOR DECADES TO COME.

**SL WHITE LACE
(Strike x Four Winds Flare)*

VITRINE ARABE

Long before producing National Champions and becoming one of Brazil's most successful breeding programs, José Alves understood a fundamental principle of Arabian horse breeding: every great breeding program begins with exceptional broodmares. That conviction guided his earliest decisions and has remained the cornerstone of his breeding philosophy ever since.

At the beginning of this remarkable journey, driven by his passion for the Arabian

horse, José Alves turned his attention to the United States in search of mares that combined outstanding pedigrees, beauty, athleticism, and—above all—the proven ability to consistently produce exceptional offspring. Among his earliest imports was a mare destined to become one of the most influential broodmares in the history of Haras JM: *SL White Lace, a daughter of the U.S. National Champion Strike (by Aladdin).

*Her influence on both
Brazilian and international
breeding programs proved
extraordinary.*

*SL White Lace produced numerous outstanding individuals, including Europa El Jamaal, a Brazilian National Champion, Scottsdale Champion, US National Champion, Canadian National Champion, and Saudi Arabia National Champion. More importantly, she established a maternal family renowned for its consistency, a legacy that continues to shape the Haras JM breeding program today.

EUROPA EL JAMAAL
(Ali Jamaal x *SL White Lace)

From this remarkable family came two of the first Brazilian Aristocrat Mares bred by Haras JM: the highly decorated Godiwa JM and Jarytza JM, both daughters of *SL White Lace. In Brazil, the title of Aristocrat Mare is awarded to mares that produce three or more offspring honored at the Brazilian National Championships, recognizing not merely the quality of the mare herself, but her ability to reliably transmit those qualities to future generations.

(*Kandy JP x *SL White Lace)

ENHRA DI VITTORIO JM
(Vittorio TO x Unité Lace Jilly JM)

ERYTZA D'VALENTE JM
(*Valente x Unité Lace Jilly JM)

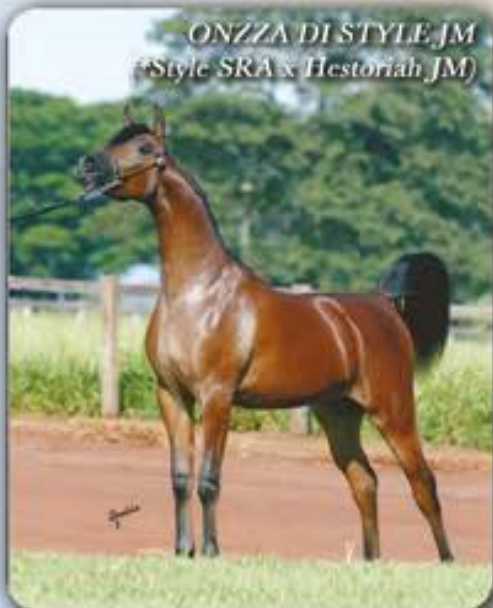

Soon afterward, another exceptional broodmare would earn the same distinction. Hestoriah JM, an elegant black daughter of *NV Sure Fire, demonstrated the consistency so highly valued by José Alves and likewise achieved the title of Brazilian Aristocrat Mare. Her production further reinforced what he had already recognized from the very beginning: truly successful breeding programs are built upon exceptional maternal families.

(Yparadise JM x Vivahra D'Yllan JM)

INYESKA DI CALVIN JM
(Calvin Del Tino JM x Zruskia JM)

IZRUSKIA DI CASH JM
(Cash Del Tino JM x Zruskia JM)

This realization gradually evolved into the defining philosophy of Haras JM. Throughout the years, broodmares, and especially Aristocrat Mares, became the very heart of the breeding program. Every new acquisition was selected with meticulous care, focusing not only on distinguished pedigrees but also on maternal families with a proven record of consistently producing champions.

Over time, this elite group expanded to include distinguished mares such as Divine NVC; Stig Justhine, herself a daughter of the Aristocrat Mare Mag Shall Londrina; *MC Vitória; Alyssa Crystal RLC; Xaklinna D'Pscore JM; her dam, Shaklina El Jahd HEC and *Angel of Marwan. Haras JM has 350 home-bred mares and 150 mares purchased from Breeders of Brazil, North America and Europe. You can see 71 of the mares of Haras JM Breeding Program at this 2026 Mares Book. Each contributed unique qualities to the breeding program while maintaining the remarkable consistency that has become a hallmark of the Haras JM program.

The success of this program is reflected not only in pedigrees but also in the show ring. Among the outstanding horses produced from these maternal lines are Endless Love JM, Cash Del Tino JM, Hezzotika Quasim JM, Juenne Apprentice, Zabellah Scrondella, Justin RSG, Heyprincess Domic JM, all of them out of Stig Justhine; and Brazilian National Champion Jucienne D' Bandit JM out of Juenne Apprentice, *AN Victor, out of *MC Vitória; Brazilian National Champion Himpehrya Terjoi JM, out of Alyssa Crystal RLC; and the impressive Cancione Del Tino JM, produced by Xaklina D'Pscore JM. Each represents another generation of thoughtful breeding founded upon strong maternal families and long-term vision.

(*EKS Farouk x Stig Justhine)

José Alves Filho's passion for the Arabian horses is boundless. He spares no effort, no investment, in advancing both the breed and his JM program in Brazil and in the USA. His dedication led him to acquire around 100% of Wieza's Diamond ORA's family, including her sire *Supreme Justice ORA, her dam Wieza Noor ORA, her sisters Wieza Suprema ORA, Wiezas Jewel ORA, Wiezas Star Light, Wiezas Shah Lady and Kwieza Sharif JM: strategic acquisitions that promise to elevate this powerful maternal line to even greater heights.

The countless trophies earned throughout Haras JM's history stand as evidence of the success of this philosophy. The impressive trophy room at the farm in Monte Mor, Brazil, is simply the visible result of decades of disciplined breeding, careful selection, and profound knowledge of the Arabian horse.

Yet José Alves has never viewed these accomplishments as a final destination. Rather, they have served as motivation to continue investing in exceptional maternal families. His goal has always been to strengthen the genetic foundation of Haras JM by incorporating new bloodlines capable of preserving and enhancing the qualities that have made the program one of Brazil's most respected breeding operations.

Guided by this vision, Haras JM has assembled one of the country's most distinguished collections of daughters from Brazilian Aristocrat Mares. Today, the program includes four daughters of *RD Fabreanna; four daughters of *JR Burmagny; three daughters of Mag Shall Londrina; as well as daughters of Shavanna El Madan, HK La Fiesta Power, Magnum Rose HVP, *Marwan CristalRCA, Mistcky Marajj HVP, Sahara Daghirah, RL Alita MAM, and RFI Bettina AlMaktub. Each represents a proven maternal family carefully selected for its ability to pass on type, structure, movement, and lasting breeding value to future generations.

"The broodmares of Haras JM are the result of a meticulous selection process, combining beauty, functionality, fertility, durability, and the pedigrees of the world's finest sires and dams.

This unwavering commitment to genetic selection enables Haras JM to make a continuous contribution to the advancement of the Arabian breed. Its horses have earned recognition in countries around the world, taking the quality of the Haras JM breeding program to the international stage and proving that genetic excellence knows no boundaries."

Zetão Rodrigues

More than simply assembling distinguished pedigrees, José Alves is dedicated to preserving what he considers the greatest treasure of the Arabian horse: its maternal families. In an industry where stallions often receive most of the attention, Haras JM has remained steadfast in its belief that truly enduring breeding programs are sustained, generation after generation, by exceptional broodmares.

It is this unwavering commitment to maternal families, combined with an uncompromising pursuit of genetic consistency, that explains the longevity and success of the Haras JM breeding program. Great champions may define a generation, but it is great broodmares that create lasting legacies.
