*Marajh KA (Makbnificent KA x Marquisah KA)  
2008 Grey Straight Egyptian Stallion*

Founder and owner of Al Jood Stud, Mohamed Jaidah values the inclusion of underused or rare blood into the gene pool of the modern Arabian horse.

The story starts in 2011, a time in which a connection was made.

Mohamed found a young and promising star at Kehilan Arabians in the United States of America, a nearly 3-year-old colt at the time named MARAJH KA.

Inspired by the Middle Eastern and Global breeding of the Arabian horse, a vision was put into motion. Marajh KA, an aspiring 2008 born straight Egyptian colt was selected to put his theories on improving pedigrees into practice by ensuring a variety of exotic bloodlines among the newly founded Al Jood collection. The bloodlines of Marajh KA are not typically available in the Middle East, so this would create an ideal base to ensure a strong future of the program in Qatar.

Marajh KA from a young age always resembled the classic look of the desert Arabian, a combination on type, great

*Marajh KA at 10 months old.*

overall structure with a beautiful upright shoulder and well-shaped neck. Leading to his beautifully sculptured face, showcasing his bright big black eyes and refined muscle. Marajh is one of those individuals that will ensure you know he has arrived, with his snorty attitude, prancing towards you with his tail set beautifully high towards the sky. A true sight to be seen!

## His sire: Makhnificent KA

Marajh's sire, Makhnificent exhibits all the traits desired in the classis Egyptian Arabian, that beautifully sculptured face which he has since birth, a smooth body and topline, perfect length of hip and croup which are hard to beat. Traits he has consistently given to his sons and daughters, which can be seen clearly in Marajh KA and his offspring as well. He truly shines as a producer, something that seems to be consistent in his pedigree and next generation. Proven to give great bodies and smooth toelines in his foals - a contribution not only from \*Sultann, but also from his maternal grandsire Ibn Dahmahn who was body perfect.

In addition, Makhnificent produces big eyes as well which comes through from his esteemed dam, Star Bint Hafiza an exotic small bay mare that exudes those

mysterious black eyes alongside her floating movement, very reminiscent of her gorgeous grandmother the grand Dahmah Shawaniah.

A truly classical beauty, Star Bint also carries the blood of The Egyptian Prince for large expressive eyes and smooth bodies combined with \*Tuhotmos for charisma, expression and desert dryness. So perhaps unsurprisingly, as one foal after another by Makhnificent slid out onto the ground and looked up at us with that intense expression and short, dishy face, it was apparent that he was ready to proof his siring ability. Even more consistent than Makhsous, Makhnificent KA adds type, tippy ears, big eyes, smooth bodies and beautiful faces which can be seen to near perfection in his son Marajh KA and the next generation.

Marajh KA

*Makbnificent KA*

## His dam: Marquisah KA

Marajh's dam, Marquisah KA is one of those mares who when you see her – your heart skips a beat! She is an ethereal mare with huge black kohl lined eyes and a delightful expression! Her dam Rahimah KA was without a doubt one of the best producing mares at Kehilan Arabians for many years. Her bloodlines are quite unique – while Nabel is very well known she also brought forward the Bint El Nile female line as well as the chiseled stallion Tuhotmos (and breeding her to Makhnificent KA to produce Marajh KA doubled the line to Tuhotmos in which the bay offspring of this family often carry a resemblance to Tuhotmos in the huge eyes and detailed chiseling) Another gem found in her dam line is that of Rawayeh the dam of El Mareekh. She produced two full sisters – one chestnut and one grey by Marquis I. They are both exquisite

and both have proven to be top notch producers with offspring in breeding programs around the world. They are also quite different in phenotype. The chestnut – Simpli Iresistibl is tall and stretchy with a strong resemblance to her dam. Whilst Marquisah was aptly named for her sire – Marquis I. Marquis attributes much of his classic looks to not only his exotic alabaster sire Makhsous (and Marajh KA is double Makhsous) – but also to his stunning dam Antigua Dance. She was a daughter of Ruminaja Bahjat. One of the full siblings to Ruminaja Ali and Alidaar. Bahjat was known for siring extremely beautiful broodmares. Antigua was no exception. Her dam line included such greats as Ansata Shah Zaman and Talal with a tail female to Venus through Samiha. Marquisah has the same fairy tale quality that Marquis exudes, they are the horses

the poet would describe the Prince riding. So refined and chiseled while exhibiting power and elegance at the trot. Tail high, floating above the ground. Zero question as to her origins – she is a Desert Queen! We knew Marquisah was special from birth. She was so delicate and her face from front on was all eyes and nostrils! Turned loose at the farm she will mesmerize those watching her with her charisma and. Besides her son, Marajh she also has a daughter that Kehilan has retained the beautiful Layla KA by Makhnificent KA – a full sister to Marajh KA. She is now on of their top breeding mares. Do not let the fairy tale beauty of Marquisah fool you however! She is without a doubt a prima donna and demands her way in the pasture with the other broodmares! She knows she is special – after all her admirers have told her so for over 18 years!

## The creation of a legacy ...

Marajh Ka's daughters are the proof of what this stallion is capable of.

At Al Jood Stud we recently shipped Marajh semen to Qatar to be used on our beloved mares here at the home farm. In 2020 Marajh KA is heading to his new home at Tolra Training Center in Spain to stand at stud and offer European breeders' access to this incredible stallion.

*Marajh KA*

*Maraam Al Jood*

## Maraam Al Jood

She is one of Marajh KA's very first daughters, and she quickly proved to be an outstanding example of the quality he sires.

Her mother, RSL Faith, is a daughter of Al Jood Stud's head sire, Alixir, and the fantastic Thee Desperado mare Rhapsody in Black.

She has won Champion titles throughout her show career in the USA, including

the Region 12, Scottsdale, US Egyptian Event and many more.

In November 2018 she travelled to her permanent home in Qatar where she provided us with her very first foal born in 2019, a very promising grey colt whom is sired by the multi-Champion Destinedy Valentino.

At Al Jood we eagerly await Maraam's next foal in 2020.

Marajh KA

## AJS Sigi's Belle

A more recent Marajh KA daughter that is making her mark is our beloved Sigi's Belle. A filly born at Om El Arab and named in memory of our dear friend Sigi Siller, she is a 2017 born grey filly out of the Al Jood owned mare Om El Badra. Badra is an Om El Shahmaan daughter out of Om El Benedine. Sigi's Belle has the genes of several crosses to the renowned Sanadik El Shaklan and Estopa flowing through her veins. Sigi's Belle is currently under the great care of Wilson Training Center who

has shown her to Champion honours multiple times in the prestigious shows at Region 12, East Coast Championships and the US Egyptian Event. Most recently she was crowned for the second consecutive year the 2019 US Egyptian Event Unanimous Gold Champion Egyptian Heritage Female.

At Al Jood Stud we are excited to see what this young mare might add to our valued breeding program as she develops into breeding age.

*AJS Sigi Belle*

*Ilham Al Jood*

## Ilham Al Jood

Ilham is the youngest of the Marajh KA daughters in the Al Jood program, this is one that is also extremely dear to our heart as she had a difficult start in life when her beloved mother passed away giving birth to her lovely daughter.

Her dam Illa Magidaa LDA lived her final year at Arabians Ltd. In Texas where Ilham was born, a mare that was owned by Al Jood Stud and of which Ilham is the only daughter in the Al Jood program. Illa

Magidaa provided Marajh with a perfect cross as she was a direct daughter by one of the all-time greats Thee Desperado, and out of her dam Bint Bint Magidaa who traces back to Shaikh Al Badi and the great Magidaa dam-lines.

Ilham joined her sister Maraam in traveling to her new home in Qatar, where she is growing up to be one of the valuable future breeding mares in our herd.
