

WE, WOMEN *The Bridge*

The women of today for the women of tomorrow

Let's build a bridge. A bridge of words, messages, wishes, directions, hopes for the future of our daughters, friends, granddaughters and ultimately for all of us.

It would be nice for everyone to participate, with a gesture, with a word, in building this bridge together, brick by brick, word by word, to cross the river of events in the world that are touching the lives of women and conditioning their destiny, to land on the other side, in a future that we can and must imagine today as shining, radiant and free. For all of us.

Participate by writing your words on the postcard that through Instagram @we_women_project will be ideally "sent into the future" to generations of women to come. Write your words in your own language or in English, as you prefer. Write your country of origin if you wish, and write your name if you wish.

Your words will be a brick, small and very important, of the bridge we are building together today.

Thank you right now for being there.

You can participate in person at the World Championship in Doha Dec. 7-9 or online by sending your message to joinus.wewomen@gmail.com

Online messages will be filled out digitally. Those handwritten in person will be scanned.

All postcards and messages received by the end of the year will be posted on Instagram @we_women_project and printed in the issue of Tutto Arabi Magazine @tuttoarabi_magazine following online publication.

As we are stepping into a new year.. I wish the world kindness, love and peace.. for Every Lady on earth, I remind you as I remind myself, we represent the feminine side of life, the unconditional love, if we start with our own selves, plant in our hearts love and in our circles kindness and light, have the guts to strengthen our boundaries, we can change a lot in the future and we can balance all the hard ego driven decisions around the world and make it one day more human...

Your Message:

Woman power emanates from the strength found in overcoming challenges, inspiring others through resilience, and embodying encouragement in the face of adversity. Their aspirations and dreams serve as guiding beacons, lighting the path towards a future where equality is not just hope but a reality. In the history of womanhood, each story is a testament to the power of determination, a source of inspiration for generations to come. As women pursue their hopes and dreams, they create a ripple effect of positive change that transforms societies and shapes a brighter, more equitable future for all.

The lesson I value most, I have learned from my mother Lena. A lesson I will learn to my daughter Sofia ♥ "Do you know the history? Then you know the future." If you want a better world for you. You must do the work and do things differently from what you usually do even if it is difficult and uncomfortable. Women in generations before you have fought for things that you see as a matter of course in your everyday life but for them it was not a matter of course. Honor them by continuing to work forward for the better. Don't stop. Keep going. You got this.

Your Message:

You are a woman of beauty, strength and brilliance. A woman who never gives up on her dreams and keeps fighting till achieving them... I know as a woman you have to go through a lot of hardships. But always keep in mind that a woman can accomplish whatever a guy can do, often even better and remember what made you strong and the people who believe in you anytime you feel miserable. You are certainly worthy and full of potential.

There are so few female halter trainers like me. I believe the halter industry needs more female trainers! We need more soft hands and feeling with the horses if we want halter to survive. It was Sheila Varian who told me I should pursue my dream and she is the one that told me we need more horsewoman in this industry. I'm following up her advice ♥

Aiutiamoci a vicenda e siamo solidali affinché avvenga un vero cambiamento. Le donne sono capaci di questo. Abbiamo lottato per i nostri diritti, alcuni li abbiamo ottenuti ed altri ci sono stati negati. Dobbiamo avere sempre il coraggio di dire NO a chi decide per noi. Che il futuro per tutte le donne sia di libertà e rispetto.

In questo mondo di finta parità di genere, dove le donne sono solo velatamente rispettate e i loro diritti solo apparentemente applicati, auguro a tutte le donne di domani un'immensa forza d'animo che le possa aiutare a fronteggiare tutte le difficoltà che potranno incontrare nel difficile percorso, per conciliare aspirazioni personali e professionali. Auguro loro tante soddisfazioni frutto dei sacrifici fatti nella loro crescita.

*Domini... dal latino "dominus" | signora, padrona...
Aggiungerai "di un steccato".*

*• Che donna sono IO?
Fatto col dire che sicuramente sono modello cottellino svizzero: mi adatto (ed adeguo) a svolgere svariate faccende in contemporanea.
Sono orgogliosa di ogni mio lavoro ma mai pienamente soddisfatta.
Mi innamoro appassionatamente di persone, animali e situazioni.
Lascio che ogni emozione mi attraversi.
Sono altruista ma non sopporto di venir manipolata o presa in giro.
Ho tantissimi conoscenti ma POCHE amici: l'amicizia richiede tempo ed impegno.
• un vero amico non può essere battuto con fugace euforicità.
Ma chi donna voglio essere IO?
Una donna che può fare tutto ciò che sono, liberamente, senza timori, senza dovermi giustificare, senza sentirmi giudicata.
Una donna che può dire alla propria figlia che è libera di sentirsi donna senza dover lottare.*
