# THE GREAT GREY

Perhaps this has been partnership pool of the youngest colt ever made in Brazil.

When he was only a month old friends Bolivar Figueiredo and Reinaldo Rocha Leão discovered EL SHAKHYR and felt, at the same moment, that in front of them there was a very special colt.

The EL SHAKHIR POOL was immediately formed, originally with some other horse breeders, but Haras Canaã, owned by Abel Leopoldino remained until today with very impressive results for his stud. Currently, Arabco, Canaã, Vila dos Pinheiros e Platina Studs are the current happy owners of this magnificent stallion, making a top quality team for his promotion.

With only 10 months of age he already was awarded National Champion Junior and in the following year became Brazil's National Bi-Champion.

With a solid track career at that time, the owners needed to test his reproductive abilities and put their best mares for this young stallion. In addition, several other breeders bought their cover rights and did the same. One of the resulting foals was the Reserve National Champion Apolo HWM (EL SHAKHYR X Yasmin HWM).

Sylvio Barbosa, from the Arabco Stud managed to produce a beautiful chestnut filly who was Junior Champion at Araxa Show and well commented by all who knew her, and follows its trajectory on the track this year. Sylvio is preparing for the next season a significant amount of mares to be covered by EL SHAKHYR.

Jaime Pinheiro, also putting several of its special females to be bred to El SHAKHYR has obtained very good results as the foal Sheik Shakhyr HVP (EL SHAKHYR X \*Angel of Marwan), Junior Gold Champion at Expo Campo Grande.

Haras Canaã has, by its turn, has already got some awarded products in national shows as Pilaus El Shakhir, Brazilian National Champion Colt and Flymetothemoon AL, first place in The Brazilian Nationals and one of the most commented fillies in that show. Today, Flymetothemoon is part of the very selected female team of Haras Canaã, which has five other young mares daughters of EL SHAKHIR. Besides these, a special one, who's got the 4th place among all the animals of the Breeders Cup: SHAWN El Shakhir (EL SHAKHYR X Vulcan AL), a wonderful dark gray filly that also make up the top female team of Haras Canaã's headquarters.

EL SHAKHYR comes from one of the most important blood strains in Brazil and the world. In his low line, his mother is the daughter of world famous, father of champions, Ryad El Jamaal. His high line needs no further comments: EL SHAKHYR is the son of the unforgettable four-time Brazilian National Champion and also Las Vegas champion, FA El Shawan.

The very EL SHAKHYR was two times Brazilian National Champion, always competing with the best horses of his generation and demonstrated on the track what his offspring is beginning to do the same success careers. They like to present themselves with great drive and motion in the showring, with their high tail lift, long and arched necks and beautiful heads! Progeny of EL SHAKHYR is very uniform and have the best characteristics of the true Arabian horse.

Looking back, the members of the EL SHAKHYR Group remember their objectives when they came together:

Jaime Pinheiro is succinct: "I was looking for a new sire to bring to my stud that I knew would be an impressive individual, and would be able to breed that quality on. When I saw EL SHAKHYR, I was sure I had made the right choice."

"The pedigree and conformation, the beauty, the movement", says Sylvio Barbosa. "In particular as well, he had been on the lookout for an infusion of Egyptian-based beauty, and EL SHAKHYR satisfied that requirement. I was

looking for Marwan Al Shaqab blood too, and EL SHAKHYR has received Marwan's best qualities, and beyond that, he has an exceptional show presentation. All these reasons had an effect on our decision to purchase him."

"At that time, we were mating our mares, whose pedigrees were predominantly Egyptian, to three of the leading stallions in our country, which were FA El Shawan, Vulcano HVP and Nuzyr HCF," recalls Abel Terrugi Leopoldino. "The promising foals from these crosses led us to think about buying a colt that could complement them. The lineage of Marwan Al Shaqab, offered a way of establishing further Arabian type, emphasizing attitude and movement without losing the harmony of the body and legs. EL SHAKHYR, fulfill these expectations."

"This horse has perfect conformation," Bolivar Figueiredo says. "He has an incredible body—a strong back, and at the same time, a good neck. He has special legs, very correct. With all this, he can move very, very nicely. And he is a beautiful show horse. When he goes to the arena for the show, he acts like 'I am the king.' He knows that."

*National Champion*

"He looks a lot like his father," agrees Rodolfo Guzzo. "EL SHAKHYR is a beautiful horse, and he shows beautifully, with neck and expression. He's very well balanced, and that's what I like about him—the conformation, the body, the movement. His movement is powerful, and he really uses the knees and the back legs; he's not just bouncing around." Now, having seen the EL SHAKHYR babies, he adds, "But I think that because he has lots of pretty in the pedigree, the babies are better than he is himself."

The owners are already preparing some of his progeny for the Brazilian Nationals and the first exhibitions next year, and for the quality of these young products, the results promise to be really good.

Now, we are seeking other goals for EL SHAKHYR with the possibility of following his career in the US, along with some of his offspring, says Abel Leopoldino. ■
