ARABIAN HORSE STUD - RANIERI FAMILY

The strength of a family passion
The love for the Arabian Horse
Pursuing excellence since more than 20 years

Mauro with his son Victor

The farm of Mauro, Carmen and Victor Ranieri is located close to Bolzano in the wonderful region Alto Adige - Südtirol. The Dolomite Mountains are the perfect background for Victor Arabians, founded by Mauro in 1998. After all these years of daily commitment, the stud has developed into one of the most important Italian stud farms. Horses born with the VA prefix were sold to breeders from Europe, South America and across the whole Middle East.

"My wife Carmen, my son Victor and I were always been looking for the absolute excellence by being aware of the new trends of the industry," says Mauro. "We created a strong basis with a small but high-qualitative group of mares, which ensured our long-term breeding journey."

The unity of the family is the winning card of Victor Arabians. Everything is shared and decided together – strategies, breeding plans, daily work, disappointments and successes.
