

MULAWA

ARABIAN STUD

Creating the Next Generation of Excellence

photos by: Stuart Vesty

***A**s the Arabian world continues to hum and thrive in the epicenters of activity in Europe, the Middle East and the Arabian Gulf as well as North & South America, something very special is developing and evolving with extraordinary vision and dedicated conviction on the opposite side of the globe in Australia. For nearly four decades, the Farrell family of Mulawa Arabian Stud has been breeding and stewarding Arabian horses of world-class caliber with remarkable consistency. With careful thought and insightful planning, the Mulawa breeding program has evolved over time to include top broodmares from the best international dam lines, while utilizing stallions that possess both key elements of authentic Arabian type: uncompromising **beauty** and inherently athletic **utility**. Now recognized as the leading Arabian program on the continent, Mulawa stands poised to expand beyond the borders of Australia, ready to share its standard-setting success and exceptional Arabian horses with the world.*

(Klass x Mulawa Kiara)

As a result of geographical isolation and the limited availability of frozen semen due to the most prohibitive global import restrictions, Mulawa has learned to creatively combine the bloodlines of the mares and stallions introduced with purpose over the last four decades. As a result, many of the best young stars currently in residence are sired by both Mulawa-bred and purchased stallions, consequently creating a broader genetic palate with which to create each successive generation. Now with seventh generation Mulawa-bred horses abundant within the program, the benefits of these direct and indirect breeding pursuits has proven to be most sagacious, allowing Mulawa to avoid the genetic bottleneck plaguing the rest of the Arabian world, while offering an alternative advantageous source of proven quality bloodlines from which the global gene pool can still reap significant rewards.

The superlative example of the Mulawa-bred stallion excelling at a world-class level is KLASS, a nine year old grey sired by imported Brazilian National and subsequent Australian Champion Stallion TS AL MALIK, and out of Mulawa-foundation mare KARMAA, a daughter of World

Champion KABORR and United States National Reserve Champion Mare AN MARIETA. The standard setter in the Australian show ring as three-time back-to-back Australian Champion – Champion Stallion in 2009, Champion Ridden Arabian Stallion in 2010, and Champion Working Stock Horse in 2011, KLASS not only represents the breed ideal of the Arabian stallion in phenotype, but also the Mulawa ideal of that versatile individual who must succeed both as a breeding standard and an athletic achiever. Used sparingly as a sire only within the Mulawabreeding program, KLASS has proven himself the most important young sire in the country with his magnificent get. His daughters are especially spectacular, four of which have already achieved significant wins at the most competitive events on the continent. The eldest of these beauties is the ethereal KLASSICAL DREAM MI, a mare of decidedly world-class appeal, who dominated the competition as a junior mare as Australian Champion Two & Three Year Old Filly as well as back-to-back East Coast Champion as a Yearling and a Two Year Old. Her younger full sister, MI KLASSIC FANTASY, has further added to the prestige of KLASS as a sire with East Coast Champion and Australian Reserve Champion

Yearling Filly titles to her credit. The dynamic **KLASSIC HARMONY MI** was Junior Champion Mare at the Queensland Challenge as well as Australian Reserve Champion Yearling Filly before selling to Al Shaqab Stud in Qatar. Four other outstanding fillies by **KLASS** from the most recent foal crop look to bring greater accolades to Mulawa and to their sire in the near future: close relatives **KLASSICAL FAITH MI** and **KLASSIC ELEGANCE MI**, as well as **KLASSICAL SERENITY MI** and the incredibly effervescent **KLASSICAL PRESENCE MI** (out of Australian, East Coast & National Stud Show Champion **PARADA**). While best known for his exquisite fillies, **KLASS** has also proven a significant sire of important sons, with East Coast & Australian Reserve Champion **KONFIDENCE MI** as his best to date. **KONFIDENCE** has welcomed an outstanding group of first foals over the past few months, which boasts well for Al Shaqab Stud, who purchased a package of breedings to this young superstar for their universally respected and undeniably accomplished program.

Many of the best **KLASS** get, including **KONFIDENCE MI**, **KLASSICAL DREAM MI**, **MI KLASSIC FANTASY** and

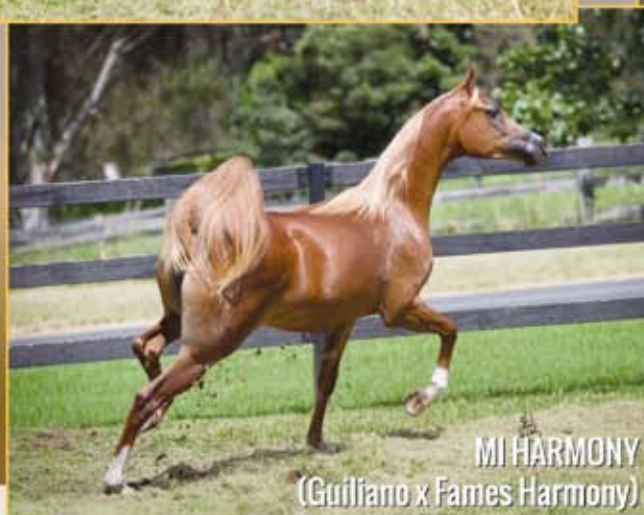

KLASSICAL PRESENCE MI are the product of daughters of the imported sire **MAGNUM FORTY FOUR**, an important son of **MAGNUM PSYCHE** who has consistently passed on superb balance and quality as well as enormous black luminous eyes to his descendants. The success of **MAGNUM FORTY FOUR** as a sire has been rewarded with back-to-back honours as leading purebred sire at the Australian Championships with a host of accomplished winners in both halter and performance. Most beloved of his splendid progeny is twice Australian & East Coast Champion **PARADA**, a fourth-generation Mulawa-bred female who is now proving her worth as a dam of invaluable merit. **MAGNUM FORTY FOUR** has also proven an excellent cross with the blood of **MARWAN AL SHAQAB**, as evidenced by two stunning daughters of National Stud Show Champion **RIMARAA**, a recent beneficial addition to the broodmare band. The eldest of the sisters, **ROMANCE MI**, has proven a show horse supreme with back-to-back Australian Championships as both a yearling filly and two & three year old mare. The younger more petite **ROMANTIC MI** will make her show ring debut in early 2013. **MAGNUM FORTY FOUR** has been an especially good sire of sons as well, most

MI HARMONY
(Guiliano x Fames Harmony)

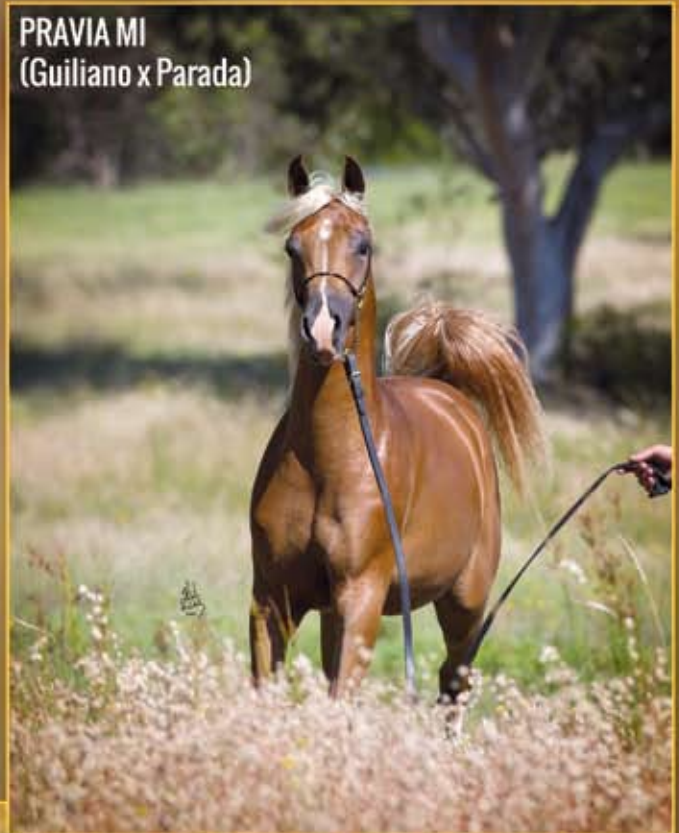

MAXIMISE MI
(Guiliano x Mustang's Magnum)

readily apparent in Australian, twice East Coast and twice National Stud Show Champion **ATUNED MI**, a reliably charismatic show horse with a more promising career still ahead. The most recent positive proof of the **MAGNUM FORTY FOUR-MARWAN AL SHAQAB** cross is the ultra-dynamic **TRUST MI**, a son of another recent Mulawa broodmare addition **DM MARCEDES TRUE LOVE** (by the **MARWAN** son **RHR MARCEDES**).

The **MAGNUM FORTY FOUR** male influence has been extended yet another generation with two excellent foals sired by his National Stud Show Champion son **ALLEGIANCE MI**, yet another tail-female descendant of Mulawa foundation mare **KARMAA**. A tragic victim of a freak pasture accident that resulted in a broken leg after his first and only show win, the fourth-generation Mulawa-bred **ALLEGIANCE** has proven his worth as a sire of superior type with both **ALLEGIANT MI** and **ADVISE MI**, two yearling colts with huge dark eyes, extreme heads, long elegant necks and smooth balanced bodies.

The reigning show horse supreme of the Australian scene is

GUILIANO, a commanding son of US & Canadian National Champion **LEGACY OF FAME** out of a beautiful daughter of breed cornerstone **PADRON'S PSYCHE**. Imported three years ago to Mulawa to add his extreme type, scope, style and athletic ability, **GUILIANO** has succeeded in spades as the most significant young sire of halter champions with his inaugural foal crop. Not only was **GUILIANO** named successive National Stud Show, East Coast and unanimous Australian Champion Stallion this past season, he managed to break all continental records by siring all three yearling champions – filly, colt and gelding – at the 2012 Australian Championships. The best of these were fifth-generation Mulawa-bred Champion Filly **MI HARMONY**, also victorious earlier that season as National Stud Show Champion Yearling Filly, and **MAXIMILLIANO**, the commandingly charismatic and powerfully athletic East Coast & Australian Champion Colt. **MAXIMILLIANO**'s full brother **MAXIMISE MI** has matured into one of the finest young colts in the country, and stands ready to add to his sire's breeding success. While **MI HARMONY** & **MAXIMILLIANO** proved the most successful of the **GUILIANO** get at the Aussie Champs, several other fabulous

ALLEGIANT MI
(Allegiance MI x MI Angel)

PRUSSIA MI
(ABHA Qatar x Parada)

sons and daughters have been racking up wins across the country. APHRODITE MI and SANTIAGO MI were named Junior Champion Mare and Reserve Junior Champion Stallion, respectively, at the New South Wales State Titles Show, while KONQUEST MI earned the title of National Stud Show Reserve Champion Yearling Colt. The charming GUILLANO daughter PRAWIA MI was awarded Junior Champion Mare honours at the important Queensland Challenge, the identical title earned by her dam, the incomparable PARADA, at the same event three years prior.

While immensely proud of the breeding and show ring success of the Mulawa-bred and purposefully introduced chief sires, Mulawa has welcomed the influence of foreign sires via frozen semen in recent years with great success. The current breeding plan and expectant foal crop includes world-renowned stallions such as MARWAN AL SHAQAB, WH JUSTICE, ZT MARWTEYN, POGROM, EDEN C, EMIGRANT and ONITNELAV. One foreign sire that has proven an ideal cross with the Mulawa mares is multi-US National Champion DA VALENTINO. The Farrells are extremely proud to have bred four delightful daughters in the

last three years, including Scottsdale, World Cup & US National Reserve Champion ALWAYS VALENTINE MI. A sixth-generation Mulawa-bred female, ALWAYS VALENTINE proudly carried the banner for Mulawa in North America for two years, winning major titles at every event in which she was shown. Mulawa is immensely pleased with her younger sister, the exotic flaxen-maned VALENTINO'S ANGEL MI, a budding superstar who has piqued the interest of several leading breeders and international agents. Another of the VALENTINO get to succeed for Mulawa is MI APSIRING VALENTINO, an exotic and elegant young mare who has been rewarded as National Stud Show Junior Champion as well as Australian & East Coast Reserve Champion.

European Triple Crown winner ABHA QATAR was introduced to Mulawa in 2010 with considerable success, giving two exceptional colts and one promising filly the following year. The best of these is uber-confident PRUSSIA MI (again out of PARADA), a long-necked, exotic faced, charismatic athlete who blends perfectly the best characteristics of his highly accomplished parents.

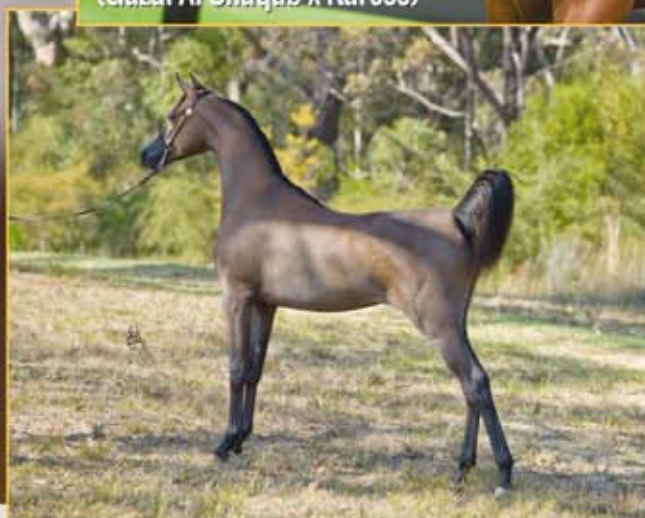

IMPRESSA MI
(Aria Impresario x Mulawa Alexa)

GLAMOUR MI
(Gazal Al Shaqab x Karess)

Three-time US National Champion & twice Scottsdale Supreme Champion **ARIA IMPRESARIO** has given Mulawa the aptly-named **IMPRESSA MI**, a third-generation Mulawa-bred female who has recently sold to North America. Very reminiscent of her highly lauded sire at the same age, yet with a more distinctly feminine appeal, **IMPRESSA** will make her debut on the world's largest stage for the Arabian horse - the Scottsdale All-Arabian Horse Show in February.

Amongst all the foreign sires utilized via frozen semen within the last five years, none has proven more beneficial than World Champion **GAZAL AL SHAQAB**. Mulawa has been blessed with four wonderful daughters in the very first foal crop, including **KARMAA** descendants **KRYSTAL MI** and **GLAMOUR MI**, the enchanting **ANGELS LOVE MI** and the superbly constructed **AMAZING GRACE MI**, maternal sister to rising star **IMPRESSA MI**. More recently, **GAZAL** has given Mulawa a handful of excellent colts, including **PROTOCOL MI** (out of **PARADA**) and the impeccable **KAVALLE MI**, another of the esteemed **KARMAA**

descendants. Superbly conformed and balanced with extreme type, quality and length of neck, **KAVALLE** is an undeniably aristocratic colt of the highest world-class caliber, with a magnetic presence and charisma that is remarkably reminiscent of both his sire and brother, **MARWAN AL SHAQAB**, at the same age.

The best of what Mulawa has been carefully planning is just beginning to emerge on the international scene, to the benefit of the industry worldwide and enduring legacy of the Arabian horse. Given the extraordinary depth of quality and the genetic breadth of the breeding program, the international community can expect Mulawa to continue to lead and succeed over the next several decades, ensuring the future of the Arabian horse remains optimistically progressive and innovative with Mulawa-bred horses at the forefront, persistently establishing and redefining the global standard of excellence.
