Murana Stud, a successful breeding program situated in Germany, near the Czech border. For the past years, Murana Stud has bred some outstanding horses that has won titles everywhere around the globe. One of the most successful horses bred by Murana is their stallion Murana's Jassehr.

Jassehr was born at Murana Stud in 2007. He is sired by the stallion Major. A stallion formerly leased by Murana Stud and now a very successful showhorse in the Middle East. Major is sired by the Straight Egyptian stallion El Allah Abu (Thee Desperado) and comes out of the fantastic broodmare Marischka (Plakat) – who was awarded with the title of ELITE mare in Germany. A title some broodmares or stallions receive for their outstanding offspring. The dam of Jassehr is one of the most successful broodmares of Murana Stud, the beautiful Jana el Bri. Jana el Bri came to Murana Stud as a yearling and has produced some fantastic foals, which gave her the ELITE title as well. The sire of Jana is the exotic CH el Brillo. A son of El Shaklan and out of AZH Basknaborra. The dam of Jana is Julliana el Jamaal who is by the legendary Ali Jamaal and out of one of the best broodmares in Brazil: NV Justa Dream, who is also the dam of the unforgettable Jullye el Ludjin.

Murana's Jassehr is a great representative of his exotic pedigree. His big dark eyes, his exotic face, well shaped neck, smooth body and specta-

cular movements have gathered him fans all over the world. Also the judges were charmed by this exotic stallion. In 2008 he achieved the Gold medal unanimously at the show in Exloo, The Netherlands. That same year he was also chosen as the National Champion of Germany. In 2009, Jassehr won the gold medal at Kauberplatte again unanimously and also

won the Breeders Cup. At the stallion license that same year, he took home again the Gold. In 2010 he went to the International A-show in Wels to compete against the big boys. He did well and got awarded with the bronze medal. In Ströhen that same year he took home again the gold, which he repeated at the breeders cup in Chantilly, France in 2013.

Now at the age of seven, Jassehr has reached a respectable breeding age and his first babies are ready to conquer the show scene. One of the first foals of Jassehr was the impressive grey colt Murana's Hacin (out of Hacinas Gloria). He was sold to Iran at a young age and won many shows there. The most recent success of Jassehrs offspring is the 2013 grey colt Murana's Majeed (out of Muranas Mamuschka) – who claimed the silver medal at the German Nationals in Aachen last year.

Murana's Jassehr however, is more than just a pretty horse. He also has a great character, something which is very important to his breeders Michaela Weidner and Michael Verhoeven. "They need to love people."

Jassehr is also being ridden on a daily basis. "It is a great test for not only their bodies but also their mind," Michaela explains. For 2014, Jassehr is SCID clear and CA clear and is available by fresh and frozen semen worldwide. □
