“It’s still magic,
even if you know how it’s done”
~Terry Pratchett~

A enticing oasis nestled in the desert just outside of Ajman, was created and built following the vision of Sheikh Ammar Bin Humaid Al Nuaimi.

Ajman Stud is not only home to some of the most beautiful Arabian horses in the world, but a place where magic truly happens every day.

In the words of author Sir Terry Pratchett, "It's magic, even if you know how it's done." And Ajman Stud has mastered its very own method on how to create magic, year after year, foal after foal.

The "AJ" horses have become a worldwide sensation, synonymous with beauty, extreme type and charisma.

Founded in 2002, Ajman Stud has searched for the most stunning mares in the world, selected the best breeding stallions, and created its very own look. Today, Ajman Stud stallions are sought after in all corners of the globe.

In an effort to always breed better, without losing breed type and preserving the qualities that have made the Arabian horse the most beautiful in the world, Ajman Stud continues to create incredible horses who conquer the minds of judges and breeders alike, wherever they are shown.

HOME OF ROYALTY

The Game Changer

She stood in her stall, peacefully looking at us, as the decision was made to send her to America. A few weeks later Felicia RLC left Ajman for sunny California.

The plan? Show her in Scottsdale and Las Vegas and then breed her to our very own Vervaldee. After being named Scottsdale Reserve Champion Filly and Las Vegas World Cup Gold Champion Filly, Felicia was bred via embryo transfer.

In February 2011, a phone call from Greg Gallun announced that a very special colt was born.

He was certainly right. AJ MARDAN was special from the start. Soon after his first birthday, he landed in Germany. That same year he took the title of Gold Champion Yearling Colt in Aachen and several more international victories followed. It was only a few years later that the world realized his greatest achievement would be in the breeding shed.

One of his very fist babies, Aj Azzam, was crowned the 2015 Triple Crown Champion Yearling Colt.

His offspring are conquering prestigious titles both in Europe and the Middle East. Given the small amount of foals he has every year, his success has been mind blowing.

He has truly been a game changer for Ajman Stud. The most recent of his babies leaving a mark wherever she goes is the truly unique AJ SAMARA..

HOME OF ROYALTY

The next "Mardan Sensation."

"There is just nothing like her," ... is what most people say once they see her.

Aj Samara truly is a unique individual. One of those horses that really have it all: an extreme face, a beautiful long shaped neck, good conformation and a great attitude. We certainly could have not asked for more when we decided to breed Sama AM to Aj Mardan.

Being born late in the season, Aj Samara's first show appearance happened in July 2018, at the Elran Cup. The quality of this filly left the audience and judges speechless, earning her the Gold Champion Yearling Filly title at her very first show, followed a few weeks later by the title of AHO Gold Champion Yearling Filly and Best in Show in Chantilly.

Now the All Nations Cup and European Champion as well, she heads to Paris with great hopes and dreams.

As Johanna Ullström says, "I've never seen a filly like her."

AJ Samara

(Aj Mardan x Sama AM)

ALL NATIONS CUP
&
EUROPEAN
Gold Champion Yearling Filly

AJ Azzam I

(Aj Mardan x Ysadora)

We never thought that his best achievement would be winning the Triple Crown in 2015. We knew that, just like his father, he would find his rightful place in the breeding barn. As his first foals hit the ground in 2018, we are seeing our expectations fulfilled.

The best foals at Ajman Stud in 2018? The Aj Azzam fillies...

AJ FTOON

(Aj Azzam x Felicia RLC)

As giving birth to Aj Mardan wasn't enough!

Felicia RLC is certainly a once-in-a-lifetime mare. She proved it once again in 2018 when she gave birth to a beautiful grey filly—a mirror image—tall, feminine and refined, with a beautiful face and correct conformation.

Sired by Aj Azzam and out of his paternal grandmother Felicia RLC, Aj Ftoon embodies all the qualities that have made these bloodlines so precious to our breed.

AJ FDAWI

(Aj Azzam x FS Venezuela)

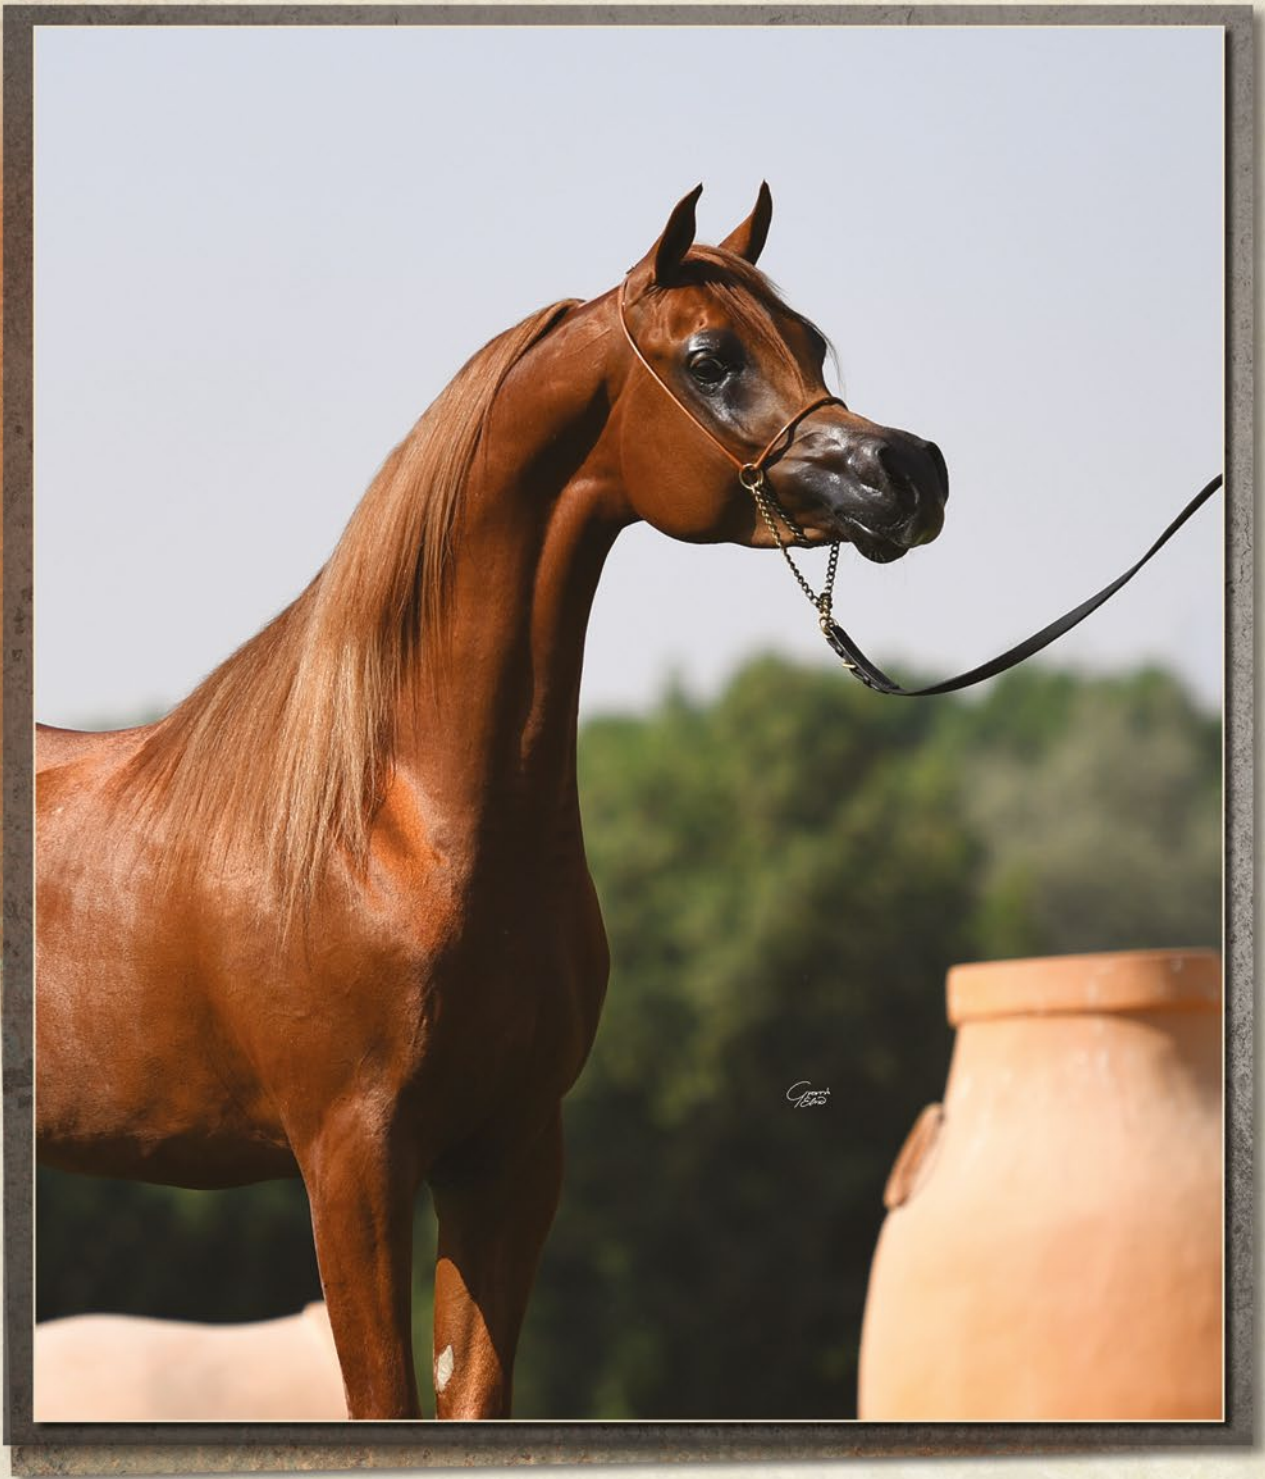

When Vervaldee is never too much!

Sired by Aj Azzam and out of the beautiful Vervaldee daughter, FS Venezuela, this spectacular young filly is a concentration of beauty, power and charisma!

Having Vervaldee on both sides of her pedigree strengthens some of the features we look for in our breeding program.

Her perfect conformation, terrific attitude and extreme type, make her a filly to watch out for in the 2019 show rings.

AJ
Marzan I
(Aj Portofino x HED AB Maria)

AJ BANAFSAJ

(Aj Marzan x Princess of Marwan)

Establishing a breeding program takes time, dedication and effort ... but once all these ingredients are there, the results are certainly worth it.

It is with great pride that we can say that most of the foals born at Ajman Stud are sired by our very own homebred stallions.

Aj Marzan is a young superstar; his first foal crop proving what great potential he has as a sire.

In 2018, a chestnut filly took the UAE show rings by storm.

Her name is Aj Banafsaj, out of the Marwan Al Shaqab daughter, Princess of Marwan.

She concluded her first year in the show arenas with the title of Dubai Gold Champion Yearling Filly.

We know there is a bright future ahead of her.

Ajman Stud

AJ Kafu

(Shanghai EA x Aj Kahayla)

Summer of 2008 ... Pride of Poland Auction ... Janow Podlaski.

She was LOT A. The lot everybody was waiting for. The lot everybody was talking about.

After a fairly long exchange of bids, the hammer falls ... KWESTURA is sold. That was the moment when one of the most successful, most beautiful mares in the world joined Ajman Stud.

We knew that years of countless success were awaiting. What we didn't know at that time, was that the foal she was carrying when we purchased her would be even more important than the victories she achieved in the show ring.

Early in 2009, Kwestura foaled a beautiful bay filly by QR Marc. We named her Aj Kahayla. In 2014 she was bred to Shanghai EA. The result was AJ KAFU.

Born late in 2015, Aj Kafu was a breathtaking foal; very pretty and full of attitude. He made himself pretty famous from the start too, winning several shows in the UAE. But it wasn't until he reached the international stage of Dubai in 2018, that the world realized what an outstanding young stallion he is.

Aj Kafu was certainly the most talked about and admired horse of the show, where he was named Gold Champion Junior Colt.

In Europe, he added to his victories the title of Menton Unanimous Gold Champion Colt and later on, All Nations Cup Champion Colt.

At Ajman Stud, we try to preserve Arabian type and beauty. We don't follow fashion, we create our own. And Aj Kafu is all we wish for in a stallion: typey, pretty, balanced, and with tons of charisma.

His first foals will hit the ground at the end of 2018. We are sure he will be as successful in the breeding barn as he has been in the show arena.
