

Breeder Profile

SHEIKH AHMED ABDULLA KH H AL THANI

Sheikh Ahmed Abdulla KH H Al Thani, inherited his love of all animals from his father, Shiekh Abdulla Khalid Hamad Al Thani.

However, like his father, it was the Straight Egyptian Arabian Horse that Sheikh Ahmed discovered a true passion for. Having grown up around horses and a true horseman himself, in 2009 Sheikh Abdulla handed over the reigns to Sheikh Ahmed to manage the breeding program of Al Waab farm.

Sheikh Ahmed has a keen business mind and his attention to detail and pursuit for excellence allowed him to develop a breeding program second to none. After seeking advice from his uncle Sheikh Abdulaziz Al Thani and with the help of his cousin Sheikh Saoud Bin Abdulaziz Al Thani he searched the world for the best straight Egyptian foundation stock he could find to commence the breeding program. Ten years and three generations on he is proud to present Al Waab Farm.

However, his passion is not just focused on breeding and beauty, Sheikh Ahmed aims to introduce new people to the Straight Egyptian breed and encourage others to fall in love with the history, temperament and unique qualities of the Arabian Horse.

With over 1 million followers on Instagram, Sheikh Ahmed wants to share his passion, his stories and his love for Straight Egyptian Arabian's with the world and really, this is only the beginning.
