Since its inception in 2007, Dubai Arabian Horse Stud fast became one of the world's most successful Straight Egyptian and Pure Bred horse farms.

Dubai Arabian Horse Stud has left their mark on International Arabian horse shows, producing Champion after Champion and gaining respect from around the world, as leaders in the industry. Managed, by Mohammed Al Tawheedi and Abdelaziz Al Marzooqi, they acquired top quality horses that have enhanced Dubai Stud, both in the

show arena and their breeding programs. Creating good relationships with many breeders and studs around the world, with their support, Dubai Stud is making important contributions to the growth of breeding worldwide. In few years Dubai Arabian Horse Stud has collected many important International Awards such as: the European Championship, All Nations Cup in Aachen, Menton and several shows in Europe, mastering a prestigious achievement- in only two years - in

the World Championship in Paris 2009, with the stunning bay stallion Royal Colours.

The accurate research, great planning, passion and commitment of Mohammed Al Tawheedi and Abdelaziz Al Marzooqi have allowed Dubai Arabian Horse Stud to take a very important step forward by introducing in their breeding program the technique of Embryo Transfer. This innovation has made it possible for Dubai Stud to try up all their wonderful mares faster, thereby accelerating their breeding process. This way they have managed to produce a wide array of Champion horses raised and bred by them. In the last few years, in particular, their

discovery of the American born stallion FA El Rasheem (Fa El Shawan x Virtuosa by Versace) has proved to be a fundamental crossing with their mares producing many Champions in shows, among which the World Champion Yearling Colt 2016 D Seraj (Fa El Rasheem x Ladi Veronica). Last year 2016 Dubai Stud has crowned one of their most important dreams by gaining the most coveted 'Award as Best Breeder' in the world at the World Championship in Paris. Thanks to the introduction of the amazing technology of Embryo Transfer, Dubai Arabian Horse Stud will produce even more astonishing Arabian horses and unquestionably more stellar Champions. When you think about Dubai Arabian Horse Stud, there is no doubt that their slogan rings true - 'Born to Lead...Bred to Excel'
