ARABIAN HORSE STUD - RANIERI FAMILY

*The Power of **Family Passion** in achieving enduring success*

25 Years of Passion and Excellence - Our journey in Arabian Horse Breeding

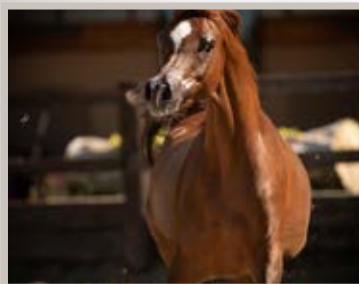

For more than twenty five years, our dedication has been reflected in unwavering commitment to breeding and selecting exceptional Arabian horses. A journey marked by ups and downs, key milestones and, above all, a deep passion shared with our family and friends around the world.

Throughout these years, some of our finest horses have found homes in prestigious breeding programs across the Middle East, Europe, South America, and, most recently, also China. What fills us with the greatest pride is seeing Victor Arabians-bred mares leaving their mark on the global stage, producing championship winning offspring for their new owners.

The year 2024 has blessed us with extraordinary foals, and we eagerly anticipate the arrival of our first 2025 foals sired by our very own VA Hector. His offsprings will proudly represent the fourth generation of our breeding program.

.... the journey continues!
