For Haras JM the sires and mares are the priority to achieve more and more extreme beauty, expressive eyes, small tight ears, long and shapely neck, smooth, strong and balanced body, tall set, excellent natural tail carriage, movies with strength and spirit, grace, attitude and style.

Our mares and stallions have the tracery of thoughtful mating, the blending of bloodlines, and consideration of the physical characteristics of each horse and their ability in the show ring. In a high percentage of the foals, the success is particularly evident, and the certainty of some mares' contributions adds extra excitement to many of the crosses.
