Mayrit Arabians Stud is a very Young but promising stud that started breeding arabian horses in 2021, is located in Madrid capital of Spain.

It is a vision and passion of two different generations, father and son. The love and passion for the arabian horses brought them into this new exciting project.

In 2021 Mr. Luis Aguilar, bought the foundation Mares of the stud. Having in mind all the qualities that the foundation mares should have, they wanted to have an open breeding program with different genetic lines but all of them with the same target, combine all this different qualities to bring the truly arabian horse breed to Mayrit Arabians Stud.

Between the foundation mares we can find extraordinary pedigrees, having some of the best sires in our recent arabian horse history, like Ajman Moniscione, Frashera Masar, Shanghai EA, Makissa Adagio, Abha Qatar and Versus Magic who is tracing back to Vervaldee.

In 2022 Mayrit Arabians was blessed with three beautiful fillies, two of them from AJ Sanad and one of them by Makissa Adagio.

LAA Allegra is one of this beautiful fillies born at Mayrit, and truly representing the breed of Mayrit Arabians Stud. She is a daughter of AJ Sanad out of an Ajman Moniscione daughter DAA Bambolina, one of the foundation mares of Mayrit.

In 2023 a beautiful colt was born by AJ Nawash and out of a Makissa Adagio daughter DAA Athena another foundation mare of Mayrit, becoming into a very refined, elegant and typical yearling colt.

Finally this year many new foals are born bringing to reality the dreams of every arabian horse breeder and being in this case the definition of the breeding program of Mayrit Arabians Stud, an achievement very remarkable for a very Young stud.

Looking forward to see the new generations of arabian horses in Mayrit Arabians Stud and feeling blessed for those that already are the soul of the farm.

Inviting all of you to come to visit us in Madrid and to know more about our Breeding program, of course you will be warmly welcome in our farm. □
