

20 YEARS

VILA DOS PINHEIROS STUD FARM

by Rogério Santos

The HVP Stud Farm is celebrating 20 years of existence and 21 titles of Champion and National Reserve Champion of Brazil, United States, Europe, Middle East, Argentina and Uruguay, all conquered by HVP horses. But, there is no doubt

that the most significant event in this 20 years was the birth of a colt called Magnum Chall HVP at the stud farm, planned through the stud farm breeding program. Magnum Chall HVP was born on May 2001, and left HVP right after weaning from his mother Taamara HVP (Don El Chall x *Taamara by Namek). He went to the United States where he was acquired by Leslie and Luck Lurken. He became Horse Champion of Scottsdale, Canadian National Young Horse Champion, American National Horse Champion, and returned to Brazil for semen collection and became the Brazilian National Young Horse Champion. The success on the tracks increases his status as a stallion. In no time he will become, along with his father Magnum Psyche and his grandfather Padrons Psyche, a leader in the stallion's statistics whose descendants won titles in American, Canadian and Brazilian Nationals. He is one of the most important stallions born in a Brazilian breeding. In 20 years of existence, Vila dos Pinheiros Stud Farm

is living one of its most vital and enthusiastic moments. Its owner, Jaime Pinheiro, is now dedicating more time to breed Arabian horses, Nelore cattle and Dopper sheep. He began to make big investments again, turning his selection programs on the three races above in a search for the "Genetic Excellence", slogan that represent this new phase for HVP breeding.

On the Arabian horses, Jaime Pinheiro is implementing a daring breeding project which intends to register more than 100 pregnancies resulting of the crossbreeding of about 60 of their best broodmares with 20 of the world's most famous stallions, until the end of this mating season. To do that, Pinheiro is assembling a huge semen bank that gathers sires like Enzo, Da Vinci, Magnum Psyche, QR Marc, WH Justice, Gazal Al Shagab,

Ajman Moniscioni, Power World JQ, Legacy of Fame and a series of other important stallions that are still under negotiation. "The semen bank eliminates the worry with delays in the collection, transportation and even in the ovulation of mares, and also gives me safety to fulfill my mating plan. The idea is to maintain a minimum quantity

ZICO GUARDIA, SIMONE LEO,
LUCIANO CURY AND JAIME PINHEIRO

20YEARS

VILA DOS PINHEIROS STUD FARM

and diversity of semen to achieve one hundred pregnancies as planned” – explains Jaime Pinheiro.

Pinheiro's new project is the extension of HVP's breeding program's personality, that has always based their breeding on the dam families. Although today it is one of the four breeders associated with the EL Sharwan Group, which has the propriety of *FA El Sharwan, four times Brazilian National Champion (Junior Colt; Colt; Young Stallion and Stallion), HVP does not own a stallion, preferring the mounting of outer sire. “An owned stud can make us lazy and we always take some time to realize the mistakes”, assures Jaime Pinheiro.

The program that he established dispensing to maintain even the sires breeding by the farm. Jaime Pinheiro wants to use his stallions, even if they don't belong to him anymore.

The American and Brazilian National Champion Magnum Chall HVP is one of the HVP program's most used stallions in the last five years. Overall, there are 36 sons registered by the farm and 16 broodmares and recipient mare are carrying his embryos only in this season.

The Austrian and Brazilian National Champion and Champion of the Middle East (Jordan) and Scottsdale (USA) expositions, Laman HVP started to be used recently, since Carlos Roizner, of Uruguay, returned him to South America in 2007. In two years the stallion was used for about 15 mountings.

The Colt National Champion and National Reserve Young Horse Champion, Vulcano HVP, owned today by a Brazilian breeders' group, will be tested this year in some mares. And for the next mating season, they expect to use the Argentinean National Champion, Burman HVP, who belongs to Julio Ruiz, and of the Colt National Champion Ultimate Chall HVP, property of Brazilian partners Flávia Torres and Luciano Cury.

The maternal families

Jaime Pinheiro decided to breed Arabian Horses after a visit to the Nagib Audi's farm at the end of 1989. He was impressed with the beauty and charisma of those animals, but two aspects stuck on his mind: the grace and femininity of the mares particularly called his attention. After

MAGNUM CHALL HVP

LAMAN HVP

some time, all of HVP program would consolidate itself in consistent maternal families. He was especially pleased with the daughters of Padron, a name that would definitely put a mark on Haras Vila dos Pinheiros breeding for the following years.

With the advice of North-American David Boggs from the Midwest Training Center and of Brazilian Polé Levy, from Haras Capim Fino, Pinheiro started to acquire his breeding stock. In two years, 16 mares, eight daughters or granddaughters of Padron, two descendents of Aladdin, one daughter of El Shaklan and four daughters of the Russians Moment, Menes, *Ponomarev and Namek, were all incorporated. Among the 16 original mares, only eight remain at the HVP breeding as them selves or are represented by their descendents. The main dam families selected from this phase of breeding were:

*Tananaa, Russian-blood mare daughter of Namek by Arax in Tanana (Aswan x Tema by Arax), bred by Dan

Hartog from Kossak Stud - Holland. She was exported to the United States by the Kabro Farm while a filly, arrived in Brazil with ten years of age in 1991, bringing a beautiful filly with her called *Padronaa, daughter of Padron who later was sold to Haras Jeribah. At HVP, Tananaa breeding 10 descendants, eight male and only two female, Taamara HVP e Tayra HVP, the two daughters of Don El Chall, who established one of the Brazilian bred's most profitable dam lines. *Tananaa died in 2004 but left, besides Taamara and Tyara, four granddaughters in breed farm and three great-granddaughters for the following year.

Taamara HVP is Brazil's number 1 Aristocrat - title that pays tribute to the dam who produced more than three prizewinning sons at Brazilian Nationals. From her 15 descendants old enough to participate at exhibitions, seven won prizes at Nationals. Among the males, Magnum Chall HVP (by Magnum Psyche) - American and Bra-

ULTIMATE CHALL HVP

zilian National Champion – Eternity HVP (by Ryad El Jamaal) – Brazilian National Reserved Champion and Ziom HVP (by Magnum Psyche), multi-rewarded in Brazilian exhibitions, stand out. Among the females rewarded in Brazil are Belíssima HVP and Magnum Magnólia HVP; in the United States, Fantástica HVP – Champion in Regions 12 and 13, and in South Africa, Talyta HVP Champion of the Gauteng Championship, all of them daughters of Magnum Psyche. Taamara still has three one year old daughters, the rewarded Taniza HVP (by *FA El Shawan), Samara Valentina (by DA Valentino) and Esmeralda HVP (by *Emiliusz). In this season, Taamara presents two embryos already transplanted from QR Marc, two breeds of Ajman Moniscione and one of Magnum Psyche, not confirmed, with births expected for the time period between the end of this year and the beginning of next year.

The newest of the sisters, Tayra HVP, was Brazilian National Champion Filly, and is the mother of four mares and three females. Her great highlights in the stud's breeding are awarded Tamyra Chall (by Magnum Chall HVP) and 2010 Brazilian National Champion Jr. Jr. Colt, the unanimous Tales HVP (by *FA El Shawan). Tayra successfully transferred three embryos of *FA El Shawan and one of *Nesj El Khibo (by Khidar) in this season.

Within the daughters of Padron that established family at HVP, mares *Padrons Tearific, *Padrons Love Song, Padrons Chariysma and Padrons Nantasha are noteworthy.

*Padrons Teariffic (x BPL Tenders Tears by Perkal) was Reserve Mare Champion in Florida and Minnesota, before arriving in Brazil in 1990. Today she is twenty two years old and is still producing. This year, she is trying one more breed by *FA El Shawan. Her breeding scoring is impressive; there are 15 registered sons with 12 females. Three daughters were exported: Myrella HVP (by *Almaden) to Fernando Santibañes of Argentina, Tiyyara HVP (by *WN Northern Yankee) to Arab Emirates and Tablila HVP to Herber Viana of Uruguay, where she was crowned Reserve Mare Champion in Punta Del Este. Two daughters of Myrella are in full production at the farm, the awarded Myna HVP (by Desperado V) and Madyra HVP (by Jahd El Jamaal). Myna is the mother

of Michelle HVP (by Magnum Chall), that was sold to Jorge Selume from Chile and produced Bacano El Legacy, Reserve Brazilian National Champion Junior Colt.

*Padrons Love Song (x Kamessha by Amurath Bakonur) and *Padrons Nantasha (x Nantasha by Nigatti) arrived in Brazil in 1985, imported by Nagib Audi, who was proud to be the breeder with the largest number of Padron's descendants in the world at that time. They were bought by Jaime Pinheiro at the auction settlement of Santa Gertrudes Stud.

Padrons Love Song produced Laman HVP (by Don El Chall), one of the refined stallions born in Brazil. The interest aroused by the moving beauty of this stallion that led to the export of seven descendants of Padrons Love Song to the United States, Uruguay, Argentina and South Africa. Only the lineage of its daughter, La Bella (by Magnum Psyche), that is pregnant of *FA El Shawan this season, remains at the stud. But four daughters will be in breed for the coming years.

The Brazilian National Champion Filly and Great Champion of 1985, *Padrons Nantasha, had only two daughters at HVP before being exported to Argentina and after that, to Chile. The lineage that remains represents the dam family of Padrons Nantasha is Nathalya HVP (by *Almaden), until today, still in breeding, with seven registered males and only one female, the extraordinary Nawaly with six registered females and only two males. Among them, the Brazilian National Champion Young Colt Ultimate Chall HVP (by Magnum Chall HVP).

Padrons Charisma contributes with the HVP through its daughter Chayya HVP, which is mother of the Reserve National Champion Mare of 2010, Magnum Charisma HVP currently owned of Rodrigo Lorenzi de Castro. One daughter and granddaughter of Chayya HVP, Challyna HVP and Acácia HVP keeps this important maternal family still alive.

*WH Northern Forever (Northerley x Royale Von by Crown Royale) is the great representative of Aladdin and responsible for the first National Champion of the HVP, Forelady HVP (by AF Don Giovanni), which were Brazilian National Champion Junior Filly and Golden Filly unanimous in 96. She was exported to United States where breed Fadila PCF, Yearling Champion of the Regions 7 and 8 at USA. In the HVP Forelady left Mar-

TAAMARA HVP

keessa HVP as her representative. The daughter of Markessa, Magnolya HVP, produced the first yearling that *FA El Shawan breed in the HVP, the multi Champion Flashy of Shawan HVP. *WH Northern Forever with its 24 years of life continues breeding for the HVP and is being inseminated by WH Justice and *Nesj El Khibo in this season.

*MS Lola Shaklana (x OJ Wild Fire by Druzba) is representative of El Shaklan in the HVP. Two of her daughters are represented in the Stud. Farraba HVP (by *Ponomarev), produced Fayara HVP (by Lumiar Amadeus) and was sold to Leo Steinbruch. Fayara HVP produced Faya Prince (by *Cajun Prince HCF), which in this year receives semen from Magnum Chall. The sister of Farraba HVP, Lyara HVP (by Tallyen El Jamaal) is in breeding and receives semen from El Shawan. She is mother of the multi prizewinner Bey Legance HVP (by Legacy of Fame) and two of her daughters, Bey Mariana HVP (by Bey Shadow TGS) and Martyna HVP (by *FA El Shawan) will be in breeding next year.

The National Brazilian Champion *AN Brosia (AN Malik x Fardonna by Farlowa) left only two products at HVP before her death, in 1996. One male and the female

ETERNITY HVP

TAYRA HVP

*Adhasa (by Cajun Prince HCF) which already produced eight females to the Farm. She and her daughters Armand Chall HVP and Alihana Chall HVP are in foal of *FA El Sharwan in this season.*

The second phase of HVP

*The first phase of HVP, from 1991 to 1998, had as protagonists, besides the 16 broodmares acquired in the beginning of the breeding, the stallions hosted in Brazil, since the transportation of semen was not authorized by the Stud Book at the time. The most influential sire lines at the HVP in this first period of seven years were those from Aladdinn, with the following highlights: The National American Champion Almaden (Aladdinn x La Ambir by Bask), with 16 registered foals HVPs; his son, Brazilian National Champion, Cajun Prince HCF (*Doll Padron by Padron) with 29 foals and the grandson of Aladdinn very successful in the Vila dos Pinheiros, AF Don Giovanni (*Allad x Wind Charm by Fire Wind) with 20 foals. From the Aswan line, his grandson Don El Chall (*Prichall x AF Donana by AF Vasco) was intensively used and with great success, with 26 foals. Others stallions were used, but with less vigour, such as Padron*

TALES HVP

MICHELLE HVP

BACANO
EL LEGACY HVP

itself and his sons *Maximiliano and *Padrons Image, Bey Shah through RSD Dark Victory and *Shabllenger, *Ponomarev (by Salon), *Ali Jamaal through Jabd El Jamaal and Tallyen El Jamaal. It was a time that HVP produced 15 to 16 annual products.

In 1996 when the first mares born at HVP were already in breeding, Jaime Pinheiro decided to reinforce his program with Bey Shah, considered an exceptional maternal grandfather. Three of its daughters were imported from United States: *WA Bey Shamnazona (Bey Shah x Comar Shamnazona by Gai Champion), *Rohara Antiequebey (WA Dandee by Mahraba) and *Venus SRA (x Precious Jabask by GG Jabask).

Another very important fact is the entry of the breeder's semen from the United States that was not possible until

NAWALY HVP

MAGNUM CHARISMA

recent times. It is the high style return of the Padron's blood to HVP. Padron Psyche and, specially his son Magnum Psyche arrived on the scene registering 26 product of the HVP brand. And one of these products is Magnum Challa HVP which also becomes a reference in the Jaime Pinheiro's with 35 HVP registered products. Other breeder that starts to be a great influence at HVP is the American National Champion Stallion, Canadian National Reserve, Champion Stallion and Brazilian National Champion, Legacy of Fame (Legacy of Gold x Fames Elegance C by Fame VF). Legacy of Fame, which is rooted in Argentina at the Gina Pelham's breeding and has 36 foals registered at HVP.

The breeding of the Bey Shah daughters was anxiously awaited. *WA* Bey Shamnazona arrives with two Champion titles from horse shows of the Regions 6 and 10 in the

United States. She had only two female offspring and two male before she died in 2003, but her breeding is a high quality one. Lady Psyche HVP (by Padron Psyche), Samantha HVP (by Psymadre) and Burman HVP (by AF Don Giovanni), Bey Psyche HVP (by Magnum Psyche) and Bey Star HVP (by Padron Psyche) that died when he was still a colt.

Lady Psyche has produced besides the Three-times National Champion Vulcano HVP (by Nuzyr HCF), two more highly awarded male offspring. Lancelot Challa HVP (by Magnum Challa) sold to Flavia Torres, and Lemnos HVP (by Legacy of Fame). The Lady Psyche's female offspring is still very young and did not become broodmares yet; the oldest Mystic Lady HVP (by Legacy of Fame) was a Female Junior Champion in several Brazilian Horse shows. In this season Lady Psyche has generated an embryo by Gazal Al

FLASHY EL SHAWAN

*Shaqab and she is being inseminated by Nuzyr HCF. Samantha HVP had, until now, only one female offspring, born in 2009, Sabrina HVP (by *FA El Shawan).*

Among the male offspring of WA Bey Shamnazona, Burman HVP was exported to Argentina where breed *JR Burmangny (x JR Magnificarash by AB Magnum), Reserve Mare Champion (3 years -old) of Scottsdale 2009. She was purchased by Jaime Pinheiro and became the 2010 Brazilian National Reserve Champion Young Mare. JR* Burmagny has already transferred two embryos, one from QR Marc and the other from Magnum Chall HVP. The mother line sibling of Burman HVP Bey Psyche HVP (by Magnum Psyche) was the only stallion used at HVP while it was still with Jaime Pinheiro. He has produced six females, some are being used as broodmares, and it was exported to Uruguay.*

*Just like *Taanana, *Rohara Antiquebey is leaving in HVP a key dam family. For Jaime Pinheiro they are the two greatest broodmares of Farm. From its four female offspring that were born until today, two of them were sold. Love Song HVP (by Padrons Psyche) was exported to North Arabians-USA and Raryna HVP (by Don El Chall) is with Tamer Hajel, from Brazil. The other two*

LEGANCE BEY HVP

MAGNUM ROSE HVP

RAFOLETTA ROSE HVP

CINDERELLA HVP

ARES HVP

female offspring that provides continuity to the HVP'S breeding are Magnum Rose HVP and Psyche Rarina HVP, both Magnum Psyche's offspring. It is necessary to highlight that from the nine offspring of *Rohara Antiequebey that were born until today, six of them were highly awarded, two are not old enough to go to the tracks and she is still in the breeding. This year, *Rohara Antiequebey is being inseminated by WH Justice, Alienor and *FA El Shawan.

Its female offspring, Magnum Rose HVP, has produced 7 females. Rafoletta Rose HVP (by *Legacy of Fame),

*ROHARA ANTIQUEBEY

LADY PSYCHE HVP

with several titles of Champion JR. Female and Filly Champion, sold to the Italian Frederico Castellani. Legacy's Rose HVP also by Legacy of Fame exported to the USA where it conquered the titles of Region 15 Reserved Mare Champion and Reserved Mare Champion of Shenadoah Championship-USA. Among the ones that are at home, the awarded filly Cinderella HVP (by FA*El Shawan) and Miss Legacy HVP (by Legacy of Fame) will start at the breeding process next year and two yearling fillies will be on the shows in the second half of this year. Magnum Rose HVP is being inseminated by Enzo, Gazal Al Shaqab and Magnum Chall HVP. The own Magnum Rose's sister, Psyche Rarina HVP is now with four female offspring and in foal by *FA El Shawan. The third Bey Shah daughter to get in the breeding at HVP was Venus SRA. She is the mother of three full sisters

by Magnum Chall. The highly awarded Vanity HVP sold at the National's Auction last November to Abel Leopoldino from Canaã Stud Farm. Venecia HVP exported to Fieldcrest Farm-USA and also the highly awarded Valentyna Chall HVP, which will start breeding next year. *Venus has transferred two embryos with *El Shawan and Enzo and is being inseminated by Da Vinci and Magnum Chall.

The Genetic Excellence

The renewal time has arrived at the Vila dos Pinheiros Stud Farm. Not only the breeding of some of the most celebrated sires in the world that are permeating the breeding at HVP. The highest quality matrice and precious wombs are being used in this new project. They are now going through the regular test period before becoming a part of

BEY PSYCHE HVP

VANITY HVP

VALENTYNA CHALL

the breeding at HVP and certainly the Vila dos Pinheiros Stud Farm will bring good news.

The availability of a longer period of time to dedicate to his horses, oxes and sheep make Jaime Pinheiro to travel around the world and by doing it he discovers the renewed breeding in Europe and in the Middle-East. The Russian elegance and the athletic consistency of Poland he had already known through the United States, however, the charming refinement that were dominating the horse shows in these continents had surprised him. For whom pursues the Excellence Genetic, those features so important to the race could not stay aside, but one has to be careful about it: "I don't want to aggregate values and take the risk of losing what was already conquered. I want the refinement and the movement that I have seen in the European horse shows, but also I want good
